

PACKERS FIGHT FOR IMMUNITY

Claims That Commissioner Garfield Made Promises To Their Counsel.

MORRISON IS IN A HARD CONTEST

United States District Attorney At Chicago Is Trying The Case Single-Handed Against An Array Of High Priced Lawyers.

[SPECIAL TO THE GAZETTE.]

Chicago, Jan. 24.—Tuesday was a day of denials in the packers' case on trial before Judge Humphrey. United States District Attorney Morrison spoke all day to the jury in behalf of the government, but did not complete his opening statement. After he finishes L. C. Krauthoff, now practicing law in New York, and former general counsel for Armour & Co., will be called as the first witness for the packers. He will tell of his conversation at the Chicago club with Commissioner Garfield preliminary to the commencement of the investigation of the packers, and the statements then made by the commissioner as to the immunity guaranteed the packers under the law if they gave the testimony desired by him.

Commissioner Garfield may not be called as a witness for several days, the attorneys for the packers having changed their plan to make him the first witness, because the government has agreed to make no opposition to the admission as evidence of Commissioner Garfield's report.

Garfield Reports Were Used. Generally and specifically, District Attorney Morrison denied all the claims on behalf of the packers by their attorneys in their opening statements lasting three days, and he also denied there had been any deception or trickery of the packers by representatives of the government, so far as his knowledge went.

The only important admission made by him of the truth of an allegation of the packers was that he used the Garfield report before the grand jury which indicted the packers, "to verify by a witness certain statements in that report as to certain subsidiary corporations of the packing concerns."

think now I did anything wrong in making use in that manner of an official document published by the government and distributed to the public," said Mr. Morrison. "I did not present the Garfield report to the grand jury as evidence against the packers. That would not have been proper. I claim I did have a right to have witnesses before the grand jury verify certain facts in the report showing that the packers were violating the anti-trust law."

Lawyers in Clash. Clashes between the lawyers over argumentative statements made by District Attorney Morrison enlivened the sessions of court. In most cases Mr. Morrison was permitted to have his way, and the packers' lawyers formally took exceptions to the rulings of the court.

"I allowed a great deal of latitude to counsel for defendants in their opening statements, and I am not disposed to impose any additional restrictions upon the representative of the government," said Judge Humphrey. "Unquestionably many statements on both sides have been largely argumentative. Despite the warning of the court at the outset that counsel should confine themselves to contentions based upon facts which they intended to offer in evidence. The court tried to keep you all within proper bounds, but all of you were pretty headstrong."

The frequent interruptions by the attorney for the packers annoyed District Attorney Morrison, and he resented them vigorously, but they did not cause him to lose his self-control or divert him from his line of argument. He was fighting against strong odds and he fought hard. His manner when speaking to the jury was quiet, yet earnest, direct, and impressive.

PAINLESS DEATH IS THE OBJECT OF THE NEW BILL

Ohio Legislature Will Wrestle With The Painless Death Problem Shortly.

[SPECIAL TO THE GAZETTE.]

Columbus, Ohio, Jan. 24.—Painless death for pain racked sufferers who have no chance for recovery and who desire to live no longer will be possible if the bill introduced in the general assembly of Ohio is passed. If the proposed measure becomes a law, persons suffering from incurable disease or from injuries from which there is no hope of recovery may be legally chloroformed to death or killed in any other painless way which physicians may design.

The measure was introduced by Representative Hunt of Cincinnati at the request of Miss Anna Hall, who has for years been a student of the subject. Her interest was aroused first by the illness preceding the death of her mother from cancer of the liver.

Miss Hall Weeps From Joy. When Dr. Oster made his famous talk on the subject of chloroforming old men she concluded it was time for legislative action on the subject. She sat in the gallery of the house and witnessed the voting down of a motion to reject her bill. The vote was 78 to 22. Miss Hall wept when she saw that her measure was to be received and sent to a committee.

"People were inclined," said Miss Hall, "to take this matter too lightly when it was first presented to them, but I am sure the work of education which it will at once cause will secure the passage of the measure. If it would have been a blessing had there been a way to relieve my mother of her sufferings. Before her death I was awakened every hour of the night by her cries and prayers for death."

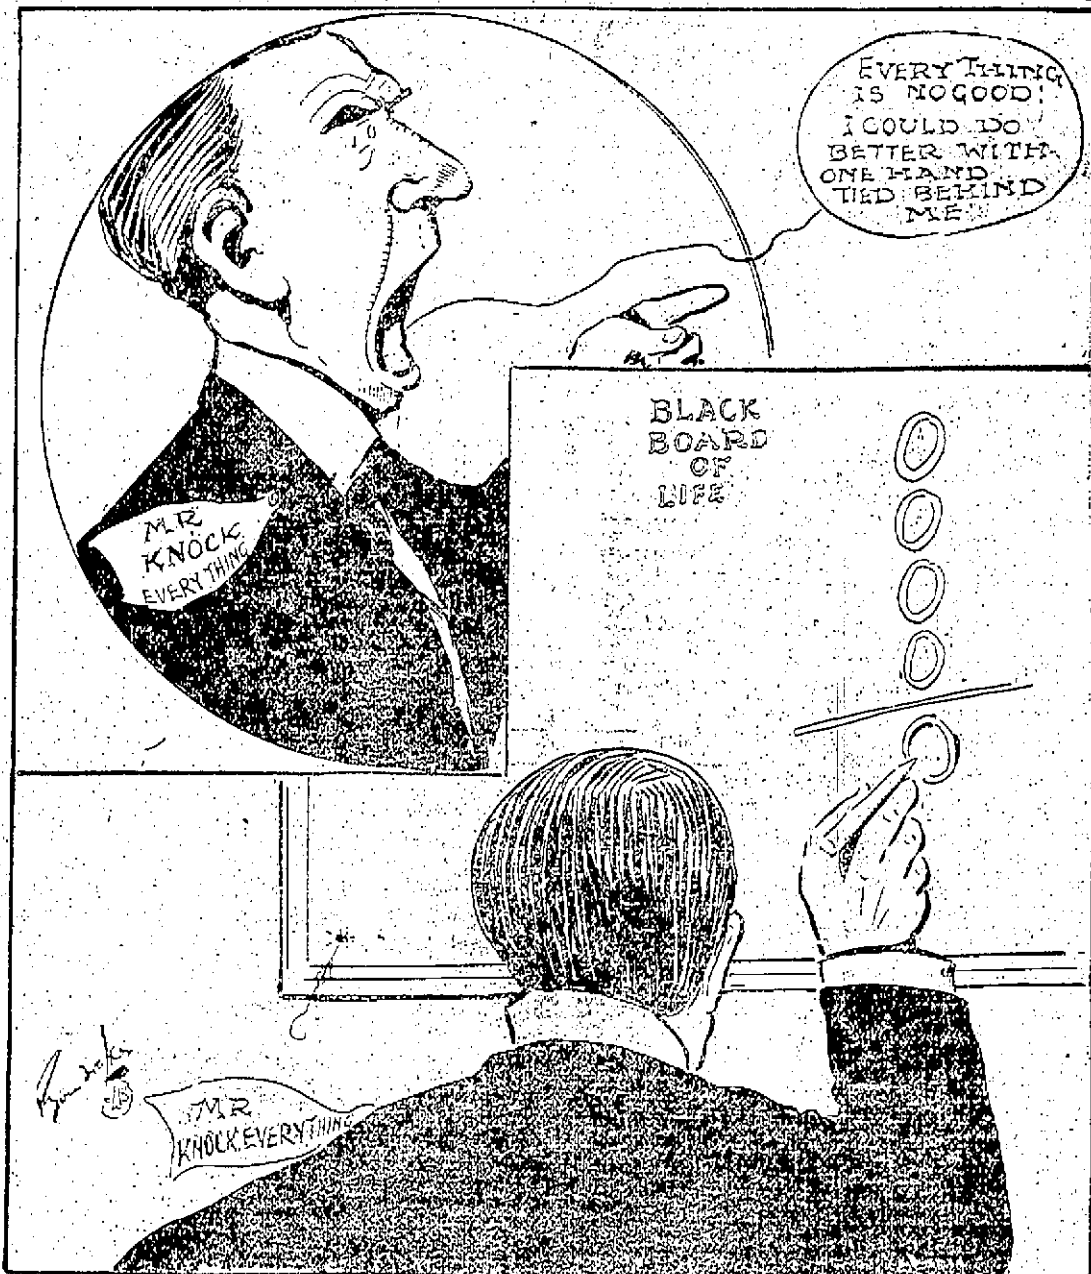

Could Legally Chloroform Patients. Miss Hall is a woman of wealth, and is a member of a highly respectable Cincinnati family. Her father, who was an arctic explorer, died a few years ago.

Under the provisions of the bill a person of sound mind, who is sick unto death and who is suffering unbearable agony can ask a physician to administer an anesthetic until the patient loses consciousness and dies. The physician must consult with three other physicians before administering the drug, and also must admonish the patient that certain death is to follow. The physician after death ensues must notify the coroner of all the facts of the death in signed statements.

was delivered by Professor Frederick T. Turner of the University of Wisconsin. His theme was: "Sectional Influence in Western History." Governor Charles S. Deneen gave the speech of welcome.

Turner Will Speak. Springfield, Ill., Jan. 24.—The Historical Society of Illinois opened a two days' session here this morning. This afternoon the principal address

After two trials, the last being for five days, George E. Dimple, charged with shooting George B. Thurston, with intent to kill for trading his sister, was acquitted at Shelbyville, Ind.

Ever notice that as a rule Mr. Man who criticises everything and everybody most in this world, generally when he comes to add up his life's account gets nothing?

FOUNTAINS SPOUT SPARKLING WINES

At Annual Ball of Liquor Dealers of New York in Madison Square Garden Tonight.

[SPECIAL TO THE GAZETTE.]

New York, Jan. 24.—This evening the annual ball of the Liquor Dealers' Association will be held at Madison Square Garden. These balls, although not by any means costume affairs, have grown to be among the most attractive events of this kind in the city and annually attract an enormous crowd to Madison Square Garden. For the ball tonight the most extensive preparations have been made and it promises to surpass all former balls in brilliancy. Among the special features of the affair will be a number of fountains spouting real champagne and other wines. There will be two military bands, which will play alternately, thus making the music continuous throughout the evening and night.

DESTRUCTIVE STORM IN WEST VIRGINIA

Bridges and Houses and Valuable Timber Leveled to Ground in Southeast Section.

(Special by Associated Press.)

Weston, W. Va., Jan. 24.—A heavy wind and rain storm resembling a waterspout passed over the southeastern portion of this state yesterday, carrying away the bridges and houses and many millions of feet of valuable timber. A report that fifteen lives were lost has not been confirmed. The monetary loss will run into millions.

MORE CONCESSIONS FOR JEWS GIVEN

Russia Designates More Communities Where They May Reside Without Fear.

(Special by Associated Press.)

St. Petersburg, Jan. 24.—Further concessions, it is announced today, have been granted the Jews in the government of Russia, where they enjoy the right of domicile by the addition of one hundred and thirty-three places in the country districts, where they will be permitted to reside without any hindrance.

FOURTEEN INJURED IN BAD COLLISION

Between Santa Fe Limited and a Local Train at Los Angeles, California.

(Special by Associated Press.)

Los Angeles, Calif., Jan. 24.—Fourteen persons were slightly injured in a collision yesterday at Glendale, between the Santa Fe limited westbound train and a local train. All the injured were prisoners on the local limited, which was running sixty-five miles an hour when the collision occurred.

The second supreme judicial district democratic convention has been called for Pana, Ill., March 1.

MADISON DISPATCH TELLS NOTHING NEW

Merely Repeats That There is a Contest on for the District Attorneyship.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., Jan. 24.—A lively contest has developed among republicans of Rock county for the appointment of a district attorney to take the place of William O. Newhouse, who resigned the office to accept the position of assistant cashier of the First National bank of Janesville. There are now three candidates for the place with good political influence at their backs. John Cunningham was the first to be mentioned by friends to Governor Davidson. Sheriff Wallace Cochrane conveyed the resignation of Mr. Newhouse to Governor Davidson Monday afternoon, shortly after the document had been written. The sheriff, according to law, is the one to whom the district attorney hands his resignation. Accompanying the sheriff to the capitol were ex-Sheriff W. A. Appleby and Mr. Cunningham, and simultaneously with the tender of the resignation an overture was made for the appointment of Mr. Cunningham to fill the vacancy. It is said that Mr. Appleby is the representative of Governor Davidson's political propaganda in Rock county, but there is no information available upon which to base an assertion that this was one of the reasons advanced by Mr. Appleby why Governor Davidson should appoint Mr. Cunningham. The latter is an attorney of years of experience in Janesville. He is not to be confused with Attorney John J. Cunningham of Janesville, a graduate of the university law school in 1892.

Another candidate is Theodore D. Woolsey of Beloit, who has been recommended by R. F. Livermore, chairman of the Rock county board of supervisors. The latest candidate to appear in the field is John Lincoln Fisher of Janesville, one of the prominent young attorneys, a graduate of the university law school and well remembered as the first graduate manager of the university athletic department. A delegation of influential citizens of Janesville had an interview yesterday afternoon with Governor Davidson, appearing in behalf of Mr. Fisher. In the delegation were Marshall P. Richardson, who is mentioned as a candidate for the appointment, but who denied his availability yesterday afternoon; Charles L. Valentine, for two terms a member of the assembly and recently appointed by Congressman Cooper as postmaster at Janesville; Oscar P. Nowlan, predecessor of Mr. Valentine in the post office position and father-in-law of Mr. Fisher; Dr. E. D. Roberts, state veterinarian; and L. B. Gettle of Edgerton, an attorney and member of the county board of supervisors.

Private Secretary Munson said after the interview was ended that Governor Davidson was pleased with the array of good attorneys available for the appointment, but would make no decision in the matter for a few days, until he has had ample time to examine the qualifications of the several candidates and others who are possible appointees.

Edward J. Morgan, a lumber salesman of Oshkosh, left on a business trip through northern Wisconsin and Michigan shortly before Christmas. On Dec. 20 he wired his wife from Manitowish that he intended taking the next train home. Since then the most diligent and painstaking search has failed utterly to reveal any trace of him.

HEAR GRIEVANCES OF THE TRAINMEN

Conference on in Baltimore Between General Manager Thomas and Committee of Order.

[SPECIAL TO THE GAZETTE.]

Baltimore, Md., Jan. 24.—The conference between General Manager Thomas Fitzgerald and the general grievance committee of the Brotherhood of Railway Trainmen which was arranged some time ago, will open here this afternoon. It is understood that the trainmen this year have but few complaints to make and the conference, which may last several days, will therefore not be very exciting, by which it is thought some of them will be more justly compensated, and this, with possible changes in some of the rules governing the service of the trainmen, are the only matters of importance scheduled to come up at this meeting.

"BILL" BATES SAYS APPOINT CUNNINGHAM

Beloit Attorney Wires Governor to Announce His Candidacy.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., Jan. 24.—Fisher and Cunningham delegations had the ear of Governor Davidson this afternoon. A great mass of letters poured in with the governor's mail today, boosting the various candidates. Many telegrams are also being received. The race seems to be between Fisher and Cunningham, with perhaps the latter in the lead. Col. Munson said this afternoon that the endorsements of Cunningham were exceptionally strong, but those of Fisher were also good. W. B. Bates of Beloit, years ago a practicing attorney of Janesville, wired Davidson today: "In my best judgment announce your candidacy and appoint Cunningham."

HOW STOCK MARKET CLOSED IN CHICAGO

Market Receipts in Hogs and Cattle Shown in a Late Dispatch.

(Special by Associated Press.)

Chicago, Jan. 24.—The stock market closed today as follows: Cattle, 22,000, slow and weak; hogs, 22,000, slow and weak; sheep, 22,000, slow and weak; wheat, 22,000, slow and weak; corn, 22,000, slow and weak; flour, 22,000, slow and weak; cotton, 22,000, slow and weak; sugar, 22,000, slow and weak; tobacco, 22,000, slow and weak; oil, 22,000, slow and weak; other commodities, 22,000, slow and weak.

SPARKS FROM THE WIRES. A man believed to have been Thomas Bowers of Cleveland was instantly killed by a passenger train at Maud's Station, near Hamilton, O. T. J. Pennington, who escaped from Juston, Ala., after he had been sentenced to imprisonment for life for murder, has been arrested at Havana, Cuba.

Commerce of the Portage Lake canals, the great water way through Keweenaw point, near its base, Lake Superior, amounted to 2,412,445 freight tons of a total value of \$79,809,500 in 1905, as compared with 2,295,922 tons of a valuation of \$59,608,948 in 1904.

Former Governor Yates will attend the Swedish banquet at Princeton tonight.

GAINS FRIENDS TO LOCK CANAL

Chief Engineer Stevens Makes Good Impression On All The Senators.

IT WOULD SAVE TIME AND MONEY

Sea Level Waterway Would Take From Four To Seven Years Longer To Construct And Cost Much More.

[Special to The Gazette.]

Washington, Jan. 24.—Chief Engineer John F. Stevens urged the merits of a lock canal at Panama so eloquently before the Senate committee on interoceanic canals Tuesday that he apparently won over the majority of the members to his ideas. Even Senator Morgan, who has been the great "kicker" on pretty much everything pertaining to the canal, capitulated before the arguments of the chief engineer, and announced after the meeting that Mr. Stevens had given the clearest and most convincing exposition of the real conditions on the isthmus and the plans and scope of the work to be performed that he had heard.

Informal expressions of members of the committee favored Mr. Stevens' recommendations. He declared that a lock canal should not take more than eight years to build, and would cost about \$147,000,000, whereas a sea-level ditch would cost \$250,000,000 and take from twelve to fifteen years to construct.

Would Answer All Purposes.

The opinion was expressed by Mr. Stevens that a lock canal would supply all the needs of commerce, and that practically the only argument that could be made in favor of the sea-level type is in the time that would be saved in conveying ships from ocean to ocean. The construction of a central lake to receive the waters of the Chagres river, it was said, would permit steam vessels of the largest type to pass through the lake under their own power and thereby make up most of the time that would be lost in passing through locks.

It is the saving of time and money that appealed to Mr. Stevens in his argument in favor of a lock canal. He said a lock canal has its problems in sight and that they have been taken into account in all the estimates that have been furnished. It was suggested by Mr. Stevens that there may be problems in the construction of a canal on the sea level of a more serious character than can be foretold.

This suggestion was not offered to place obstacles in the way of building a sea level canal, if that should be determined on, he said, and added that it is only fair to the foreign engineers, who constituted the majority of the consulting board, to say they made their estimates carefully and that about \$250,000,000, probably, is very near the amount that the canal would cost if built on the sea level.

Continue Eight-hour Day.

The members of the house, considering the urgent deficiency appropriation bill, took steps which insure the continuance of the eight-hour day on the isthmus and also limit the compensation of a canal commissioner to his salary. This latter move was directed at former Press Agent Bishop, who, it was believed, was to be given an assistant secretaryship in addition to his duties as commissioner. A number of amendments having as their object the requiring of European competition in the purchase of canal supplies were voted down, it being explained that European firms now have the chance to bid on all contracts.

Fight Disfranchisement.

Nearly three hundred of the most prominent men among the negroes of this country are assembled in this city, to attend a convention which will open here this afternoon at the

COTTON PRODUCERS TO DICTATE PRICE

Have Spinners and Bears, Who Fleeced Them Earlier in Season, at Their Mercy.

[SPECIAL TO THE GAZETTE.]

New York, Jan. 24.—For the first time in history the American cotton growers are in the fortunate position to dictate to the spinners and cotton goods manufacturers. The spinners and manufacturers, realizing this fact, decided to ask the producers to meet them in conference for the purpose of arranging some compromise regarding the price of cotton. In accordance with this decision representatives of the New England, the Manchester, England, and the American Association of Southern Cotton Spinners met the representatives of the Southern Cotton Association in conference in this city. President Harvie Jordan, of the Southern Association, is here and will attend the conference, which may last several days. The situation is rather peculiar. When the South-

Metropolitan church. The convention has been called for the purpose of protesting against the treatment accorded to the colored race in the South and, particularly, against the disfranchisement of the colored voters which has gained such headway that a large majority of the colored citizens is already deprived of the right. The Rev. S. L. Carruthers, pastor of the Sixth Street Methodist church, the Rev. O. J. Scott, pastor of the Metropolitan Methodist Episcopal church, Professor W. H. Harris, instructor in law in Howard University, Booker T. Washington, and many other prominent men in the colored race are in attendance and will deliver addresses before the meeting, which will probably last three days. President Roosevelt has been invited to address the convention, but it is doubtful whether he will be able or willing to do so. Among those who have been invited are several United States Senators and members of Congress from Southern states.

Captain Rose's Case.

The War Department has received the remarkable record in the case of Captain Robert W. Rose, of the 21st Infantry, who was tried in San Francisco before a military court for alleged insubordination and was sentenced to be reprimanded. The part of the record which is most interesting, is the copy of the correspondence in which Captain Rose indulged in with his senior officers. He was at the time of his alleged offense a patient under treatment at the Army General Hospital in San Francisco, and he addressed the military secretary of the department headquarters on one occasion, asking that if he were confronted with any charges, he be "proceeded against in a lawful and dignified manner," adding: "The treatment I am receiving here is not only unusual and unmilitary, but it is cruel and unnecessary as I am not sick. My health is being impaired by the confinement and torture. If I cannot secure relief from the military authorities I must, perforce, appeal to civil law, as my health demands it." At another time he referred to the hospital and its surroundings as constituting "a novel situation, as it is my first term of confinement under the medical department." Gen. Funston, who passed on the case, thought that the court did not do full justice to the findings as expressed in the sentence.

Indian Lands Allotted.

The final report of the commission of the five civilized Indian tribes in Indian Territory, covering the fiscal years 1905, when the existence of the commission officially ended, has been submitted to the Secretary of the Interior. The report says that the commission has accomplished the purpose for which it was created, though such things as final allotment of lands to Mississippi Choctaws and allotment contest cases must go on for a considerable time. The commission has negotiated the agreements necessary to the dissolution of the tribal governments and the transfer of land titles from the tribes as communities to the individual Indians. The commission experienced great difficulty in making the rolls absolutely correct, owing to the peculiarities of Indian nomenclature, marriages with whites, etc. The Choctaw and Chickasaw nations had 66,217 applicants for enrollment; Cherokee, 46,464; Creek, 20,110; and Seminole, 3,171. Out of this total of 135,963 Indians, 89,295 men enrolled or identified, 32,522 refused or dismissed, and 13,135 applications are still unsettled. Out of the total 135,963 acres of land, up to June 30, 1905, there were allotted 12,754,347 acres.

COTTON PRODUCERS TO DICTATE PRICE

Have Spinners and Bears, Who Fleeced Them Earlier in Season, at Their Mercy.

[SPECIAL TO THE GAZETTE.]

New York, Jan. 24.—For the first time in history the American cotton growers are in the fortunate position to dictate to the spinners and cotton goods manufacturers. WAS GETTING EASY MONEY WHEN FOUND

Agent for 'Nursery' Claimed to Have Swindled Many Local Purchasers.

Janesville people who purchased nursery stock from the Henry Lake Sons company of Black River Falls, Wis., through W. L. Waddell, agent, will lose the 25 per cent. of their order which they advanced in cash. The agent was an accredited agent of the company, but failed his orders and "worked" Madison, Beloit and Janesville and had started on Rockford before his game was discovered and he was arrested.

How Discovered. The deception was discovered by a young lady in the office of the company, whose duty it was to enter the orders received. Having received a large number of orders from Waddell from Janesville and Beloit she spread them out on her desk preparatory to entering them in the book and was struck by the similarity of the signatures. Calling the proprietor, her suspicions were upheld and an investigation made at once in Janesville where it was found that not one was an authentic order and that no such persons lived at the addresses given.

A Few More. He had already sent in some orders from Rockford before being apprehended and these also were found to be false. He had sold about \$3,200 worth of goods for future delivery for which about \$800 commission had been paid him and this latter sum will not cover the loss of the firm, as the goods will necessarily have to be sold again, for they have been secured as the orders came in and prepared for spring delivery.

Goes to Madison. Waddell was accompanied by a woman who claimed to be his wife and who returned with him to Madison, where the fellow was taken by Chief of Police Baker. It may be that Waddell forged all of the orders sent out from Beloit and Janesville, in which case the crime is confined entirely to his dealings with his employers, but it is thought that he may have secured a number of genuine orders from Beloit people who paid their 25 per cent. in advance.

JANESVILLE LEFT IN COLD BY THE LEAGUE

Bubser, Who Was To Have Come to Janesville, Has Signed with Green Bay.

When President Powers of the Wisconsin state league visited Janesville last week to discuss baseball with local enthusiasts he held out the glittering prospect of having Manager Bubser of Beloit move up here with all his team of last year, his reserved men and the possible reserved men that Manager Cantillon might give him. It looked very good, it appeared as though Janesville was really going to have a team on the jump-off and that all which was to be done was to raise the guaranty and arrange for the park. Now a dispatch from Green Bay announces that Bubser has signed with Green Bay for the coming year.

WHAT IT MEANS TO YOU.

Few People Realize the Importance of Good Digestion Until It Is Lost.

Many people suffer from dyspepsia and do not know it. They feel mean, out of sorts, peevish, do not sleep well, do not have a good keen appetite, do not have the inclination and energy for physical or mental work they once had, but at the same time do not feel any particular pain or distress in the stomach. Yet all this is the result of poor digestion, an insidious form of dyspepsia which can only be cured by a remedy specially intended to cure it and make the digestive organs act naturally, and properly digest the food eaten. Bitters, after dinner pills and nerve tonics will never help the trouble; they don't reach it. The new medical discovery does. It is called Stuart's Dyspepsia Tablets and is a specific for dyspepsia and indigestion. It cures because it thoroughly digests all wholesome food taken into the stomach, whether the stomach is in good working order or not.

Stuart's Dyspepsia Tablets, by digesting the food, instead of making the worn out stomach do all the work, gives it a much needed rest and a cure of dyspepsia is the natural result.

When you are nervous, run down and sleepless, don't make the common mistake of supposing your nervous system needs treatment and fill your stomach with powerful nerve tonics which make you feel good for a little while, only to fall back farther than ever.

Your nerves are all right but they are starved for want of food. Nourish them with wholesome every day food and plenty of it, well digested, and you can laugh at nerve tonics and medicine.

But the nerves will not be nourished from a weak, abused stomach, but when the digestion has been made perfect by the use of this remedy all nervous symptoms disappear.

Who ever heard of a man or woman blessed with a vigorous digestion and good appetite being troubled with their nerves?

Good digestion means a strong nervous system, abundance of energy, and capacity to enjoy the good things of life.

Stuart's Dyspepsia Tablets will certainly set your stomach and digestive organs right; they can't help but do it because they nourish the body by digesting the food eaten, and rest the stomach.

You get nourishment and rest at one and the same time, and that is all the worn out dyspeptic needs: to build him up and give new life to every organ and an added zest to every pleasure.

Stuart's Dyspepsia Tablets are a god-send to the army of men and women with weak stomachs and nerves and justly merits the claim of being one of the most worthy medical discoveries of the time.

ing year, thus ending the hopes of the Janesville enthusiasts. Just what is being done in the line of forming a stock company here is not known, but something will doubtless be decided upon shortly.

BRONCHITIS AMONG JANESVILLE DOGS

Has Your Pet the Symptoms?—Canines Must Be Doped and Wear Bandages About the Neck.

There is an epidemic of bronchitis among the pet dogs, the house dogs and the yowling street dogs of Janesville. Some are living along, wheezing and suffering as best they can while others are being treated carefully, wearing bandages about their inflamed throats and being given medicine every half hour or hour. This isn't the extremity of care for the canine either. Just read below what a veterinarian says of the subject: "Every precaution should be taken by women who care for their pets," said a veterinarian, "to prevent their contracting colds. When they take the animals from a steam heated apartment a little blanket should be put on to shield the throat and lungs from the cold. If they are to ride in an open carriage a fur-lined blanket will be none too warm. When taken out for exercise a light weight flannel sweater should be sufficient to keep them comfortable. During cold weather the thin-skinned canines, such as Blenheim spaniels, black and tan, ruby spaniels, for terriers, and all the little toy dogs, should be blanketed with warm coats, for they are easily chilled and susceptible to cold, and for that reason contract bronchitis, pneumonia, and lung fever quicker than the large, thick-skinned animals. Unless collars, St. Bernards, Newfoundlanders, and the big dogs that are natives of cold countries are kept in warm rooms they need no blankets even in severe weather, for their skins are thick and their coats heavy and shaggy and keep them sufficiently warm. As another precaution against cold I would put boots on the toy dogs, when they go out, to keep the feet warm and dry. Leather ones are good, but if fur-lined shoes can be had they will keep the little paws warmer than kid or leather. As a rule dogs do not take cold from having wet or cold feet, but if possible their paws should be kept warm and dry. The first symptoms of bronchitis are a sore throat, refusal of food, a cough, and wheeziness when breathing that is easily detected. Such a condition should be attended to at once, but if a veterinarian cannot be called to treat the animal, a dose of quinine, say from a half to two grains, the quantity to depend on the size and age of the dog, should be given every two or three hours until the pet can be properly treated and prescribed for. To ease a sore throat and lessen the inflammation a cloth saturated with camphorated oil should be bound around the neck, and this treatment continued until the dog can eat without pain. If this bandaging does not help I would advise consulting a doctor to prevent serious trouble and unnecessary suffering for the animal."

Go to Madison. Waddell was accompanied by a woman who claimed to be his wife and who returned with him to Madison, where the fellow was taken by Chief of Police Baker. It may be that Waddell forged all of the orders sent out from Beloit and Janesville, in which case the crime is confined entirely to his dealings with his employers, but it is thought that he may have secured a number of genuine orders from Beloit people who paid their 25 per cent. in advance.

JANESVILLE LEFT IN COLD BY THE LEAGUE

Bubser, Who Was To Have Come to Janesville, Has Signed with Green Bay.

When President Powers of the Wisconsin state league visited Janesville last week to discuss baseball with local enthusiasts he held out the glittering prospect of having Manager Bubser of Beloit move up here with all his team of last year, his reserved men and the possible reserved men that Manager Cantillon might give him. It looked very good, it appeared as though Janesville was really going to have a team on the jump-off and that all which was to be done was to raise the guaranty and arrange for the park. Now a dispatch from Green Bay announces that Bubser has signed with Green Bay for the coming year.

A BAS THE FERRET!

HAIL TO THE HORN!

Fasten Horn to Piece of Hose, Poke It in Rabbit's Burrow and Blow Loud Blast.

Rock county rabbit hunters have discovered in the season just closed that a fishbone and a piece of rubber hose are valuable additions to the sportsman's ordinary outfit.

The sportsman who have used ferrets have had full game bags, for there is nothing that a rabbit dreads so much as one of these long, slinking, blood-thirsty animals. Let a ferret enter the burrow where a rabbit has taken refuge and you'll get action quickly. Hunters around here have found that the fishbone and the rubber hose will serve the same purpose just about as well. The hose is attached to the mouthpiece of the horn, and the horn is pushed into the hole as far as possible. One good blast will usually dislodge the cottontail, which pops out with the speed of an electric spark.

The fishbone is a good deal better in many ways than the ferret. At best a ferret is treacherous, and the man who handles one is apt to be obliged to pry the creature's teeth out of his flesh. Besides, no matter how completely the ferret's teeth have been blunted, every once in a while he is sure to nail a rabbit in the hole, and when he does this it's usually an all day job for the hunter to get him back into the bag. He will gorge himself on the rabbit's blood and then curl up in the remotest recess of the hole and sleep his dinner off. Many a black mark has been set down in the recording angel's book against a hunter whose ferret had played this trick. The fishbone method of starting the rabbit out besides being within the law, is so much more humane than the use of a ferret. The squeal of the ferret's two glowing eyes advancing toward it in the darkness of the burrow is pitiful, and this alone prevents many sportsmen from using the animal.

NEW POSTAL RATES GO INTO EFFECT SHORTLY

Classification Reduces Cost of Mail to Sweden—Pound for 12 Cents Instead of \$1.60.

By a new parcel post arrangement it will be possible after February 1st to send articles from the United States to Sweden at the rate of 12c a pound. The value of the articles sent must not exceed \$50, must not weigh more than four pounds nor be more than three feet six inches in length. The service which is to be given for 12c a pound after the first of the month now costs \$1.60. This is explained by the fact that never before has been any classification of mail intended for country without the parcels post. All mail, no matter what it may be, has to be paid for as first-class postage.

Stuart's Dyspepsia Tablets will certainly set your stomach and digestive organs right; they can't help but do it because they nourish the body by digesting the food eaten, and rest the stomach.

Stuart's Dyspepsia Tablets are a god-send to the army of men and women with weak stomachs and nerves and justly merits the claim of being one of the most worthy medical discoveries of the time.

HERE IS A PLAN TO ARRANGE SALARIES

Racine Alderman Claims to Have Solved This Intricate Problem Easily.

Alderman Merrill's idea that the salaries of the city officers should be paid a salary has taken a firm hold on popular opinion. It would appear to be the sentiment of the majority that it would be a good move, but the question arises where is the extra money to come from to meet this new expense? Racine is having just such a discussion and the Racine papers are earnestly advocating that the aldermen be paid a good salary. They are also wondering where this good sum comes from and one enterprising member of the common council of the lake city has the following suggestion to make, namely, that the aldermen become policemen. This might not be pleasing to the Janesville advocates of the measure, but according to the following clipping from the Racine Journal it is feasible:

"One of the Racine aldermen, according to statements made at a meeting of the tax committee held last night, has studied out and solved the problem. This city official imparted his scheme and one of the tax committee explained it.

"There should be but one alderman from each ward of the city; the salary of these officials should be fixed at \$1,000 per annum, at the same time they should be empowered with the authority of a policeman and act as such officer in his respective ward; this would do away with eleven members of the police department; then these aldermen should take care of all work in their wards, such as looking after the streets, sidewalks, gutters, sewers, etc., and thus the board of public works could be dispensed with."

Perhaps Whitehead May Be Chosen Now. Governor Davidson is in a quandary as to his rights to appoint a successor to Senator A. L. Krueger as a member of the University Investigating committee, the senator having positively declined to act. Senator John M. Whitehead is being talked of as a possible successor if the Governor finds that he has the right to fill the vacancy.

PERHAPS WHITEHEAD MAY BE CHOSEN NOW

Governor is in a Quandary as to What His Rights in the Matter Are.

Governor Davidson is in a quandary as to his rights to appoint a successor to Senator A. L. Krueger as a member of the University Investigating committee, the senator having positively declined to act. Senator John M. Whitehead is being talked of as a possible successor if the Governor finds that he has the right to fill the vacancy.

CHARLES S. BUCK IS MADE THE EDITOR-IN-CHIEF OF THE BELOIT ROUND TABLE

Former Janesville Resident Is Honored by His Fellow Students at Beloit.

Charles S. Buck, for several years editor of the Janesville Independent and later employed at the Gazette office, has just been elected editor-in-chief of the Beloit Round Table, the publication of the students of Beloit College. Mr. Buck is completing his college course at Beloit and will graduate in June next.

Labor Notes

The Brotherhood of Locomotive Engineers has 44,790 members.

At least 2,000,000 children under sixteen years of age in the United States are employed for wages, most of whom ought to be in school. Child labor laws lack uniformity in different states and many of them are only crude beginnings at legislation; nearly all are poorly enforced. Several states and territories have no legal protection for children.

Representative Kahn has introduced a bill in congress providing for the treatment at government expense of navy yard employees injured on duty with medical attendance, either at their homes or in government hospitals. The bill also provides that the wages of the injured employees shall be paid to their families for six months after the period of disability.

Active steps are being taken by four great Chicago corporations to provide comfortable berths for their employees who have passed the age limit. The Northwestern, Metropolitan, South Side and Chicago and Oak Park elevated roads have united in reserving the positions of night station agent for gray haired men. Within a few years, all these night agents will be drawn from the ranks of those who have served the company for several years.

A public meeting at Sydney, (N. S. W.) passed resolutions protesting against the arbitration act amendment bill as being subversive of the principles of arbitration and destructive of the legal rights of the workers.

Because he worked half an hour longer than the law allowed, P. Zam and a minor employed in the colleries of James Dunsinair at Cumberland, B. C. have been found guilty by Judge Abrams of violating the eight-hour law and fined \$250.

LINK AND PIN... News for the Railroad Men.

St. Paul Road Engineer Wilkinson of the Brotherhood-New Glarus run is off duty.

Harry Logdon has relinquished his place as night-caller and will begin work this evening on the roundhouse force.

A misplaced switch in the yards at Portage resulted in a collision last night between two freight trains and the probable fatal injury of Engineer Richard Hurley of La Crosse. Freight No. 73 standing on a side-track was struck by the engine of eastbound No. 63, the fast freight. The caboose of the waiting train was demolished and the fire department was summoned to put out the fire that followed the crash.

Frank Blackford, a Milwaukee road brakeman on the New Glarus division, was injured at Brookfield while coupling cars. He will recover.

North-Western Road J. R. Ward, formerly a brakeman on the road, has commenced work at the Janesville Machine company's shops.

Switchman Vern Fraunfelder is off duty.

TO CELEBRATE 83D ANNIVERSARY

M. Nuzo, an old resident of Wisconsin, will celebrate the eighty-third anniversary of his birth at his home in Milton Junction on the second of next month. He is hale and hearty and expects to enjoy the event just as much as he ever did any birthday festivity in his youth. He has much to be joyful for. His health is good and his life's record is one to be proud of.

M. Nuzo was born at Moscow Mountains, in the Province of Quebec, Canada, in 1823. When still a very young boy his parents removed from the Dominion to the States, settling in Vermont. In this state he received

M. NUZO OF MILTON JUNCTION

ed his education and grew to manhood. During the summer of 1845 he came to Janesville, which at that time was but a village, though the center of southern Wisconsin. When the Mexican war broke out Mr. Nuzo enlisted. He served under General Scott and in the battle of Churruvino in 1847. He was wounded in the leg. He then came back to Janesville and remained here until 1850.

In the previous year gold had been discovered in California and he among many others caught the "fever." He recovered from the attack, however, and returned home, engaging in the lively business of farming. He followed this business for a year and then purchased a farm, which he still owns and resides upon.

Shortly thereafter, in 1853, Mr. Nuzo was married. Miss Margaret Evans, being his bride. To bless this union eight children were born—Elizabeth A., George W., Edwin A., Mary and Sarah (twins), Cora B. and William S. One child died at the age of nineteen months.

Mr. Nuzo has been a member of the Milton Methodist church for more than half a century. He served as its steward for several years, as its Sunday school superintendent also and even now when the weather is good he attends the divine services on Sundays. In politics he has always been a republican. For thirty years he served on the school board and his work for the betterment of educational facilities in his community is deserving of much praise. Mr. Nuzo has been a subscriber of the Gazette over fifty years, having first taken the paper when Charles Holt and Levi Alden were employed as printers in the shop.

No trouble to get breakfast quick if you have Mrs. Austin's Pumpkin Pie.

WISCONSIN AND ILLINOIS PHYSICIANS TO ASSEMBLE

In Rockford Next Tuesday—Dr. W. H. Palmer of Janesville on the Program.

At Rockford next Tuesday a joint meeting of the Southern Wisconsin and Winnebago County societies will be held and a large audience is expected. There will be two sessions and a banquet at the Nelson House at one o'clock. Dr. W. H. Palmer of this city is one of the several Janesville physicians who will attend and he will read a paper on "Some Surgical Affections of the Stomach."

Nothing but, so fine as Mrs. Austin's Pumpkin Pie. Ask your grocer for it.

DID THE COCK FIGHT COME OFF NEAR HERE?

A Monroe Paper Says That It Did—Are They Mistaken or Is It True?

Is it possible the Monroe Times, which prints the following article, made a mistake, or is it correct? The article is as follows: Daze county officers stopped a cooking main that was to be pulled off at Madison Saturday night. Madison, Janesville and Monroe birds were to be pitted in the fight but when the sport was off the Janesville and Monroe delegation returned to Janesville where Janesville and Monroe birds figured in three fights after 2 o'clock in the morning. Monroe birds won two out of three battles. Each battle was for \$5. The sports had the birds and the opportunity and thought they would have a few little fights even if the Madison main was off.

= FORTY YEARS AGO =

Janesville Daily Gazette, Wednesday, January 24, 1866—Religious Convention.—A Convention of Ministers and Elders of the Synod of Wisconsin will meet at the Presbyterian church in this city this Wednesday evening at 7:30 o'clock.

Opening sermon by Rev. A. A. Dinsmore of Neenah. Preaching also on Thursday and Friday evenings.

The Young Men's Association.

Janesville, January 23d, 1866. Messrs. Editors:—Allow me to say a few words with regard to the condition and aims of the Young Men's Association of this city. The number of members connected with this society has, since the war commenced, been unusually small. We have, however, kept up our regular meetings, and during the present winter have succeeded in hiring a good hall, since which our list of members has steadily increased.

We at first hesitated about attempting a course of lectures this winter, because we want none but the best speakers, and they can be procured only by paying a large price. The condition of our treasury hardly warranted us in making any extravagant ventures. Trusting, however,

that our citizens would sustain us, we engaged our lecturers for the winter.

The liberal patronage bestowed upon our first lecture has convinced us that the citizens of Janesville are with us in our enterprise.

If the present course proves particularly successful, it is our intention to establish a library and reading room in connection with the Association—an object which must meet the approval of all.

We trust we shall not be considered charity seekers when we urge upon our citizens a general attendance at our lectures.

The reputation of our speakers is a sufficient guarantee that all who attend will be amply repaid for time and money thus expended.

Recovered.—The son of Ex-Sheriff Earle, who was injured by being run over some two weeks since, has so far recovered as to be able to get about quite nimbly, and is on the high road to complete recovery.

Those wishing a nice dish of oysters will do well to call at the eating house of Norris, corner Main and North First streets, Janesville. If those served us were a specimen,

..COMING ATTRACTIONS..

The coming of "Arizona" to the Myers Grand Monday evening, January 29, will be marked as a red letter engagement by theatergoers who will have witnessed performances of this excellent play in New York, Philadelphia, Boston, Washington or Chicago. New York critics have unanimously declared that it is the best play which Augustus Thomas, author of "Alabama" and "In Mizoura," has yet given to the stage. Mr. Sill, in the Evening World, said of "Arizona," on the Tuesday following its first production at the Herald Square theater: "It is the best play seen on Broadway in a generation." As the title indicates, "Arizona" has its scenes in the picturesque southwestern territory, which is now asking at the hands of congress, the dignities of statehood. It is by no means a "wild and woolly" melo-drama and although it is replete with stirring action and embraces one tragic climax, which would probably claim melodramatic classification were it not removed by a back ground of uncanny humor and picturesque romance. An exquisite scenic production is promised.

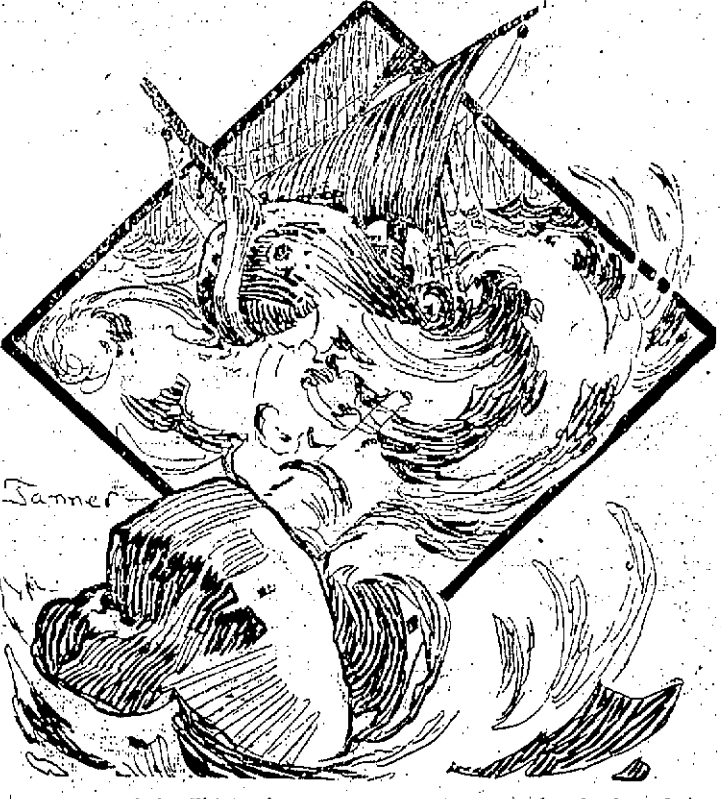

The popularity of refined specialties the past few years has been growing so rapidly that it has quite overshadowed the legitimate drama. Smith's Refined Specialty company which comes to the Myers Grand on next Saturday, matinee and evening, is composed of specialties such as are

usually so well received with the better class repertoire companies, with the exception that acts of this nature presented by repertoire companies are usually handicapped by being compelled to work in the front scene. Then again they are usually picked from the ranks of the acting company, whereas with a traveling organization of this character they are usually more proficient as they have nothing but their respective acts to look to and of course have the advantage of proper staging, etc.

This company claims to present the most stupendous bill of novelty specialties ever offered by any traveling organization visiting cities of this size, and local theatergoers will undoubtedly go away satisfied that their evening has been well spent and that they will have had a "good run" for their money.

Swift and Hamlin, a pair of clever comedy musicians are presented as a special feature, coming direct from Keith's theater, New York city.

Bowman, the Great, a modern comedy magician will present weird and startling illusions from the old world. Little Baby Rhea, late of the Mr. Richard Mansfield and Anna Held companies will probably especially interest the "little ones." Other features will be Miss Adelaide Marshall, a clever song and dance artist; A. J. Wayne, black face comedian; J. A. King, the phenomenal baritone who sings illustrated songs and a series of new moving pictures.

January 24, 1870—Thirty-six years ago today, one hundred and twelve lives were lost when the United States corvette Onondaga sunk.

Find the captain.

JANESVILLE MARKET REPORT.

THE JANESVILLE GAZETTE

Business Office Open Saturday
Evenings.

ENTERED AT THE POSTOFFICE AT JANESVILLE, WISCONSIN, AS SECOND CLASS MAIL MATTER.

WEATHER FORECAST

Generally fair tonight and Thursday; slightly warmer.

TERMS OF SUBSCRIPTION:
Daily Edition—By Carrier:—
One Year, cash in advance, \$5.00
Six Months, cash in advance, 2.50
Three Months, cash in advance, 1.25
Daily Edition—By Mail:

Three Months, 1.50
WEEKLY EDITION—One Year, 1.50
Long Distance Telephone, No. 77-2
Business Office, 77-3
Editorial Rooms, 77-3

"The newspaper size" of a store—the relative space of its advertisements, compared with those of its competitors—is more in the public mind than the actual size of its buildings or salesrooms.

President Roosevelt has laid down the law to the so-called "insurgents" as to what he expects to do.

There appears to be as many candidates for the office of district attorney as flies on a molasses jug.

There is plenty of snow for the small boy to shovel even if the sun has melted some of it.

Mr. Cooper appears to stand alone in his attitude toward the rest of the Wisconsin delegation in congress.

Theatrical troupes that think they own the earth become a "cropper" if they keep up their actions long.

Governor Davidson will have to do some quiet thinking to satisfy all those enthusiastic aspirants for office in Rock county.

There is no necessity to go away from Janesville to see enthusiastic mine owners. They can be found in every doorway.

The common council believe in drastic measures when they are in session, but their beliefs dwindle down to nothing when they are out of doors.

This squabble for the district attorneyship is amusing to the conservative republicans. They can sit back and enjoy the wild rush for office by the "fiftieth" knowing that at the next election if the choice is not satisfactory it can be turned down.

WHAT'S IN A NAME?

The people of San Francisco are indignant because of the common reference of their city as "Frisco," says the Wall Street Journal. Zoeth S. Eldredge, president of the National Bank of the Pacific of San Francisco, has written a letter to President Davidson, of the St. Louis & San Francisco Railroad, protesting against the adoption by that company, as a "trade-mark," of the abbreviation "Frisco." He tells Mr. Davidson that this is exceedingly obnoxious to the people of that city, and that if the good will of the citizens of San Francisco is of any value to the St. Louis & San Francisco Railroad, the management will do well to abandon the use of a term so offensive to them. "I am aware," says Mr. Eldredge, "that commercial travelers and a few commonplace individuals without appreciation of beauty, euphony, historical significance, or dignity of a name, affect a familiarity with San Francisco by talking unwarranted liberties with her name, and from them, on the trains, one hears, among other unspeakable terms, the vulgar 'Frisco,' ad nauseum."

Mr. Eldredge writes to The Wall Street Journal to the same effect. "San Francisco," he says, "was founded in 1776. It was named in honor of the patron, the father and guardian saint of the early explorers. It is a name of beauty and dignity, and should not be degraded to the vulgar and meaningless 'Frisco.'"

One cannot but sympathize with Mr. Eldredge's protest, and the St. Louis & San Francisco Railroad might well give heed to it. It is as offensive to speak of a great city like San Francisco as "Frisco" as it is to call a great personage like Roosevelt, "Teddy." Nevertheless it is useless to attempt to prevent this sort of thing. People will not say, "San Francisco," if they can express their meaning as clearly by using the abbreviation "Frisco." They will take a short cut every time.

Wall Street throws dignity and beauty to the winds when it comes to the use of words and names. It has an abbreviation for every important property in the country. These abbreviations are in a degree essential to the rapid conduct of business. They are not beautiful, but they are useful. They are as vulgar as slang, but just as effective as slang often is in expressing a meaning. But, while the use of abbreviations may be justified in the work of the stock exchange, there seems to be no good reason why a more dignified use of names should not be cultivated in our conversation and literature. The people of the United States should cultivate a little more of the refinements of life. San Francisco is a fine name. The greatest city of California has reason to be proud of it. Let us all try to give her the full benefit of it.

NEW NAVAL POSSIBILITIES.

The use of Hertz waves as a means of communication between warships has promised to lead to more or less radical changes in naval practice. One, indeed, was effected by the Japanese two years ago. They maintained a blockade of Port Arthur with vessels that were sixty or seventy miles away. Others of an equally striking character may be looked for when the subject has been more carefully studied by tacticians and when more data are placed at their disposal. To no nation in the world will such improvements have a greater practical value than to the United States, and the authorities at Washington seem to be thoroughly alive to that fact.

A recent dispatch to The Chicago Tribune outlined a series of experiments, which are about to be undertaken under American auspices, and from which it should be feasible to draw helpful deductions. The floating drydock Dewey is now on the Atlantic on the way to the Philippines. Rear Admiral Brownson has been instructed to follow it, and to put himself in touch both with the commander of the towing squadron and with home coast stations. The execution of the plan seems to demand the posting of Admiral Brownson's four cruisers on a straight line between the Dewey and some convenient wireless station in New England. Effectively to cover the interval, it would seem to be necessary to arrange them at equal intervals from each other, from the drydock and from the land station which is selected. The repetition of messages by each ship in the series to the next one would also be requisite. The Dewey was believed to be about eighteen hundred miles from Portsmouth, N. H., on Wednesday, and to be traveling one hundred miles a day. It might be considerably more than two thousand miles away before the chain of communication was established, and there would then be five gaps, between four hundred and five hundred miles in length, to be spanned. To accomplish even so much as that would be a great achievement, and the further the Dewey goes the more difficult the feat must become. It does not appear from The Tribune's dispatch how long the experiments are to continue, but it may be taken for granted that they will be abandoned when it is no longer possible to maintain communication over the whole interval between the towing expedition and New England, and this may happen before Gibraltar is reached.

The most important questions to be determined would seem to relate to the maximum distance that can be covered by the Hertz wave apparatus on the West Virginia and her sister cruisers. This will, it can be foreseen, be exceedingly variable; for daylight has a paralyzing effect on wireless telegraphy. Messages can be sent twice as far at night as in the bright sunlight. It will be desirable, therefore, to note exactly what can be accomplished under both the most favorable and the most unfavorable conditions that are to be expected normally.

There is some reason to think that the instruments in service on Admiral Brownson's vessels can communicate over wider intervals than those on transatlantic steamships. With the apparatus which the latter carry it is unusual to send more than two hundred miles. With a more powerful outfit the range would, of course, be increased, but at present this limit is rarely exceeded. How much better Admiral Brownson's equipment is cannot yet be told. While the president was on his way home from New Orleans a few months ago messages from the flagship which were intended for Key West were "picked up" at much more remote points. In instances they were heard nine hundred or one thousand miles off. These experiences are not to be regarded as representative. If in actual service messages can be transmitted half as far, there will be occasion for profound satisfaction, if not for surprise. Five hundred miles, it will be remembered, is a full day's sail for a twenty-knot vessel. Ability to span this with certainty may revolutionize many of the methods of war.

PRESS COMMENT.

So Careless Of Walter! El Paso Herald: Walter Wellman is ordered to find the pole. It was very careless of him to lose it in the first place.

It's Time To Duck. Green Bay Gazette: La Follette has recovered from his illness at Washington and the trusts had now better duck their heads.

Dull Days Up North. Marinette Eagle-Star: The little squabble for the place on the supreme bench, is the only item of political interest there is this winter.

Remnants Of Interesting "Rep." Superior Telegram: The Buffalo News says that Senator Tillman is now living on the decaying remnants of a once interesting reputation. Quite true, indeed.

Give The Boy More Work. El Paso Herald: The simplest solution of the hazing problem at Annapolis and the football problem at other colleges is to give the boys a little more work to do.

Putting It Lightly. Exchange: The well to do or able bodied citizen who allows his side-walks to remain in an unsightly or dangerous condition is not a wholly good citizen.

Question Of Posture. Milwaukee Sentinel: The Indianapolis News intimates that the sen-

ate committee has not affected Poulney Bigelow's "standing as a writer." How about his lying?

Also For Venezuela's Health. Chicago Record-Herald: Having stirred up trouble with France, President Castro of Venezuela has gone away for his health. If he'd stay away for his health all the time it would save a lot of bother for everybody.

A Return Of Courtesy. Oshkosh Northwestern: State Senator Merton, who has announced himself a candidate for the democratic nomination for governor, is being very generally endorsed by the La Follette republicans. But of course this is only a return of courtesy.

Art Ahead Of Grub. Exchange: Jan Kubellic the violinist, refused \$2,000 to play at a musical at New York when he learned the entertainment was to be given during a feast. Has oil to Jan and his devotion to art ahead of dollars. Tainted money is evidently no inducement to him.

Ris Says He May Run. Exchange: Jacob Riis, personal friend of the president, says that Mr. Roosevelt will probably consent to run again in 1908 provided he becomes convinced his duty lies in that direction. This will be rather discouraging to some of the men who have been carefully flurrying on their own chances in case the president stuck to his announced determination to quit at the expiration of his present term in office.

"Immune College Things." Dale Recorder: A lot of young imbeciles who have just outgrown the bottle-sucking age are known as "college men" and are permitted to raise all kinds of trouble without molestation from the police. Other young toughs who are not sufficiently enlightened to call their ruffianism "hazing" are arrested when they become drunk and disorderly. The moral to young men is, if you want to become a thug, with immunity from arrest, take the football and chorus girl course at some university.

Upheaval To Help Anyway. Madison Journal: News from the athletic conference at Chicago is to the effect that the conference will not accept the suggestion of Wisconsin that intercollegiate football be suspended for two years. However, the upheaval that has come as a result of the proposition will end in good, for though the game may now stay it is bound to be reformed in some effective fashion.

Back To First Principles. Waupaca Record: Students of the University of Wisconsin are of course all torn up because the faculty has taken action toward the abolition of football. Some of the news reports have gone so far as to state that rioting is feared. To one who denies the necessity of breaking a boy's neck or gouging out his eye in order to educate him, it appears that too much prominence is given to athletics, and especially to football, in the schools throughout the country. A commendable effort is now being made to bring the Madison school back into closer touch with the legitimate purposes for which it is maintained. Few can doubt that athletics in moderation and under right restraint is an aid to these purposes; but when mental attainment is subordinated to physical prowess the time has come to call a halt.

Link Says He's President. Fond du Lac Commonwealth: Lincoln Steffens, who has started on the quest of information about the national government at Washington, the story of which is to be written for the Record-Herald, makes a beginning in the Sunday issue of that paper, which is tamer than might have been expected from this iconoclast, who has been making the rounds of the states and writing them up for McClure's. After having spent a week in the national capital, he is able to reach the conclusion, which a good many people have arrived at before him, and which he is pleased to express by declaring that, "The president is the president. Theodore Roosevelt is no figurehead. He is no man's man. He may be a boss himself; they say he is a very interesting character. But at least he is the president."

FIFTY BOOKS ARE NOT YET RETURNED

Patrons of Public Library Will Be Fined if Delinquent After Saturday.

About fifty books, that were taken from the public library before it was closed many weeks ago, when the prevalence of varioloid made such action advisable, have not yet been returned. It is now nearly two weeks since the building was reopened and no excuse for the delinquency can be given. Mrs. Best, librarian, has decided that unless these missing books are brought back by Saturday, a fine of two cents for every day since January 11, the reopening date, will be charged against those to whom the books were lent. Many of these volumes are new or but recently published and there has been a great call for each of them.

D. 1906, at 12 o'clock in the afternoon, at my worthy city of Janesville, the same being in the year of Skelly & Wilber's grocery store, I shall offer for sale at public auction the stock of J. B. Anderson, now in my warehouse and sell the same for as much thereof as shall satisfy my claim for store against the said stock.

Dated January 2nd, 1906. W. C. SCHWARTZ, Notary Public.

MINING STOCK FOR SALE

Prospectus of the Earl Lead and Zinc Company, Located in the Pecatonica District. Main Office, Belmont, Wis.

OFFICERS—Wm. Appleby, Janesville, Wis.; Vice-Pres.—Geo. Bender, Galena, Ill.; Secy.—W. H. Doyle, Platteville, Wis.; Treas.—H. C. Klen, Janesville, Wis.; Board of Directors—Wm. Appleby, Janesville; Geo. Bender, Galena; W. H. Doyle, Platteville; Harry Ames and G. Gogerty, Belmont.

The Earl Lead and Zinc Company has been organized as a corporation under the laws of the state of Wisconsin, with a capital stock of 75,000 shares of one dollar (\$1) each, for the purpose of mining.

TO OUR FRIENDS, CUSTOMERS AND INVESTORS.

The property of the Earl Lead and Zinc Co., is located in Iowa county in the Pecatonica District, 3 1/2 miles north and east of Belmont, Wisconsin, and 5 1/2 miles southwest of Mineral Point, on the main highway between Belmont and Mineral Point. The company has a good lease on 49 acres, better known as the old Rider diggings, now owned by Thos. Graber, which has three different ranges, running east and west the entire length of the property. This can be proven by the early day mining of this district. The surface indications and the amount of ore taken out by shallow mining is positive proof that this is one of the richest ore bearing properties in Southwestern Wisconsin.

DESCRIPTION OF PRESENT WORKINGS.

The shaft goes down on an east and west crevice, and about 33 feet down the shaft, is five sheets of black jack which runs from one to two inches in thickness. All of these can be carried with a drift 5 feet high. There has never been any cross cut on this upper run except a narrow drift east and west along the range, and in the first 108 days two men mined, cleaned and marketed \$1125.00 worth of ore. Further down the shaft at a depth of 60 feet six different sheets were cut which will run from 1 to 6 inches thick. All of the sheets can be carried with a drift 6 feet high. This property at present has a forty-foot breast and conservative mining men estimate those six different sheets—if all in one, would make from 9 to 11-inch sheet of jack the entire face of the forty ft. breast. Due east of the shaft 70 ft. on the range at a depth of 60 feet, 13 1/2 feet of good cuttings were discovered by drill. Still further east 200 feet, were discovered good cuttings at a depth of 75 feet. The difference in the depth of the two drill holes is the gradual running of the ore vein into the body of the hill, which is also considered by mining experts to increase the amount of ore. One principal item worthy of consideration is the fact that this company has had only four miners to work on the ore for seven weeks, and they have mined with hand steel, and put on the dump 50 to 60 tons of jack, during that extremely short period.

GENERAL INFORMATION.

The intention of the company is to sell 25,000 shares of said stock at \$1.00 per share for the purpose of developing and equipping the mine. Whereas 10,000 shares of the capital stock shall remain in the treasury and shall not be sold unless in case of emergency.

Two other important features outside the ore proposition, of plenty in sight and plenty on the dump, is, that the Mineral Point & Northern railroad runs within 1/4 mile of this property, and at this point is also the Pecatonica river which will settle the important water question which is bothering some of the very best property at the present time.

It is the intention of the company to build a tramway from the mine to the railroad track where they will erect a one hundred ton concentrating plant.

This location will add greatly to your holdings. For the most important reasons it will go away with carting the ore and coal. The mine will also be equipped with air compressor, drills, steam hoist and all other labor saving machinery.

We call your attention to another fact: The members of the board of directors are conservative business men and will use their best possible judgment to equip this mine properly at the least possible cost. We say most emphatically, beware of investing before investigating. There are two ways to investigate. First—write to the Mayor or other officials in the town or county where the proposition is located, or better still go to the place yourself and make a personal investigation. Where this is impossible make your investment through some one who is thoroughly familiar with the property and who has made a most searching investigation.

In closing we wish to emphasize the fact that we consider an investment in the Earl Lead & Zinc Company a safe edge investment, and we urge you not to delay in sending in your orders, because the stock will be sold in a short time. The cash must accompany the subscription cards, and can be sent to the State Bank at Belmont, or to W. H. Doyle, cashier of the State Bank at Platteville, Wis. Your certificate of stock will not be forwarded by return mail covering the amount of your purchase. Certificates of stock will not be issued for less than 25 shares of the capital stock. The Secretary and Treasurer of the Earl Lead & Zinc Co. are men whose honesty and integrity cannot be doubted for an instant. Nevertheless, being a business proposition they are under \$20,000.00 bonds. You need not hesitate to invest every cent you can spare in this proposition as you will most assuredly reap large and permanent dividends for the same. We trust that every one who is in any way acquainted with the property will make an effort to purchase at least 100 shares of this stock. YOU. We are certain we will make money for you and prove our claims. And in conclusion, we say that in offering our friends and the public in general the above proposition we are offering them as good a chance to invest as can be found in the mining district.

THE EARL MINING CO.

The above stock is for sale by D. W. WAT, at his office in the Hayes Block.

One must see the Garments to realize the money saving possibilities in our Present Prices on CLOAKS, SUITS, SKIRTS, WAISTS.

5 DAYS MORE---5 BIG DAYS.

ENJOYED HIMSELF.

After sitting in the dental chair for over an hour last Saturday one of our well-known business men got up, stretched himself, and said:

"Dr. Richards, I don't know how I could have spent a more enjoyable hour than I have with you today."

Just think of that.

After his tooth had been cut off, the nerve extracted, and a crown put on.

Enjoyed himself.

That don't look like he had been hurt much, does it?

That's how people feel who employ Dr. Richards to do their dentistry.

Because he studies how NOT TO HURT his patients.

LATE LOCAL NEWS IN BRIEF

Eastern Star dance Jan. 26th.
On account of the sickness of Supreme Master Workman, Narvis, the meeting of the A. O. U. W. at Odd Fellows' hall this evening is called off.

HAVE SECURED RAIL
FOR THE RAILROAD

Indian Ford Transportation Company
Only Waits for the Spring
To Come.

Everything is ready for work on the Indian Ford Transportation Company's road-bed at Indian Ford as soon as spring comes. President McKee and Chief Engineer F. F. Peterson have all the plans and specifications ready and the rails have been contracted for and will be delivered as soon as possible. The plans call for a few changes from the original specifications, but the road will be practically as planned last autumn. It is understood that a local banking concern is ready to underwrite the bonds and that their bid has been passed upon by the counsel for the road, S. D. Tallman. President McKee is jubilant over the prospects and says that the road will be in working order as soon as needed by launch owners.

MAIL HORSE DROPPED
DEAD IN COUNTRY

George Hiller of Rural Route No. 7, Lost His Steed Near Leyden Yesterday.

George Hiller, mail-carrier on rural route No. 7 out of this city, lost a horse yesterday through a strange accident, two miles north of Leyden. Owing to the heavy roads Mr. Hiller drove his two horses on his route and when north of Leyden one of them slipped and fell, breaking a blood vessel and dying on the roadside. Mr. Hiller was able to continue his work by borrowing a single harness and using his other horse.

GAZETTE ELECTED MEMBER
OF THE ASSOCIATED PRESS

WILL FURNISH ITS PATRONS WITH
THIS SERVICE IN FUTURE.

WORLD WIDE IN ITS SCOPE

Is Considered Most Complete Service for Furnishing News in the World.

With today's issue of the Gazette telegraph service furnished by the Associated Press Association begins. The Gazette was recently elected member of the Associated Press, the largest news service in the world, but was unable to begin its service on January first owing to its previous contract with the Scripps-McRae Press Association. This last association has now released us and we begin our service with the Associated Press. It is with pleasure this announcement is made, as this service is recognized the world over as the best furnished. Its scope is world-wide and it has agencies in all the large cities and representatives in every town worthy of a telegraph office. In fact the Associated Press covers the entire civilized globe. Its officers are men of national prominence. Frank B. Noyes of the Chicago Record-Herald is president; Charles H. Taylor of the Boston Globe, first vice-president; H. H. Canavan of the Augusta, Ga., Chronicle, second vice-president; Melville E. Stone, general manager; and Valentine P. Snyder, treasurer. On the board of directors are such men as Whitelaw Reid, Clark Howell, W. L. McLean, Albert J. Barr, George Thompson, Victor F. Lawson, Charles W. Knapp, W. R. Nelson, H. W. Scott, Thomas G. Rapier, Herman Ridder, M. H. de Young, Charles H. Grasty and A. P. Longtry. In presenting this service to its patrons the Gazette feels the necessity of furnishing the service recently furnished by the Scripps-McRae Press association has been most excellent, but with the idea of giving the best service obtainable to its patrons it applied for membership in the Associated Press and after considerable negotiations was elected a member.

In presenting this new service to the patrons of the Gazette attention is also called to the other excellent news facilities offered by the Gazette. The world news is taken care of by the Associated Press and a special New York news service that comes daily, including interesting letters on fashions and other matters of interest. William Wolf Smith acts as the Washington correspondent and keeps the readers in close touch with national affairs, political and otherwise. His letters on the recent Philippine bill discussion have given a clear insight into what this measure will mean to the farmers of Rock county. Guy Mitchell, also of Washington, writes frequently on the irrigation questions. A complete labor service is also obtained through one of the large labor bureaus of the country. As a supplement to the daily Associated Press service the American Press Association of Chicago also furnishes daily service. At Madison a special correspondent furnishes the latest news that transpires in that city and special correspondents at Edgeport, Evansville, Detroit, Milton Junction and Milton keep the reader in touch with the happenings in the largest cities in the country. Aside from these sixty odd correspondents located throughout the country write semi-weekly and weekly letters. As a special feature a serial story has been published in the past and particular attention is called to the coming serial entitled "The Man on the Box." It is an extremely interesting story and one that keeps the interest up from the opening chapter to the closing word. The scene is located in Washington and deals with the inner life of two retired army officers. The opening chapters will be watched for with interest.

TO BUILD ADDITION
ON FACTORY BLOCK

Lewis Knitting Company Will Expand
Annual Meeting of Concern
Held Yesterday.

Prosperity has shone upon the Lewis Knitting company during the past year and increased business has made it necessary to enlarge their factory. An addition has been decided upon and will be built this coming season. It is to be in the form of a wing on the west side of the present structure, 60x40 feet, two stories high and of brick. At present some departments of the plant are crowded and the upper floor of the new portion will be arranged for a finished stock room and the lower floor for a laundry. The laundry equipment will be moved from its present location to make room for other machinery. The management of the concern has become interested in the problem of power and are considering plans for installing either steam or gas power. Electricity is now being used. The annual meeting of the company was held yesterday and all officers and directors were re-elected for the coming year. The comparison of the past year's business with that of the previous season was most gratifying.

Lewis Hall
Lewis Hall, formerly a resident of Janesville, died in Peoria on Monday last. Mr. Hall left Janesville thirty-six years ago and was known all over the country as the man milliner. The funeral was held in Peoria this morning.

THE WEATHER

Temperature last 24 hours taken from registered thermometer at Heimstreet's drugstore: highest, 23; lowest, 8; at 7 a. m., 10; at 3 p. m., 30; wind, east; cloudy.

Do the business. Want-ads do.

COLUMBUS KNIGHTS
BANQUET THURSDAY

Numerous Other Social Events of the Week—Miss Haile's Approaching Wedding—Local People Going to Florida.

Carroll Council No. 596 of the Knights of Columbus will enjoy its fifth annual banquet at Assembly hall Thursday evening, January 25. Attractive invitations which have just been issued announce the following menu to be served at 7:30 p. m.:

Olives Celery Pickles
Roast Turkey with Dressing
Roast Spring Chicken with Dressing
Cranberry Sauce
Cold Ham
Mashed Potatoes Saratoga Chips
French Peas Sugar Corn
Ice Cream Coffee Assorted Cake
Nuts and Fruit

Knelt & Hatch's full orchestra is to furnish the music and the following will act on committees:

Reception—Mr. and Mrs. Michael Hayes, Mr. and Mrs. Daniel Ryan, Mr. and Mrs. T. P. Burns, Mr. and Mrs. C. J. Mahoney, Mr. and Mrs. Henry Brazzel, Dr. and Mrs. M. A. Cunningham, Mr. and Mrs. Joseph Connors, Mr. and Mrs. Geo. Devins, Mr. and Mrs. W. H. Dougherty, Mr. and Mrs. W. T. Dooley, Dr. and Mrs. T. H. McCarthy, and Mr. and Mrs. E. H. Ryan.
Arrangements—D. W. Hayes, Joseph H. Scholler, Fred L. Wilbur, John E. Kennedy.
Decorations—A. J. Wilbur, Harry Keating, Albert Smith, D. J. Luby, Harry Haggart, E. H. Connell.
Floor—J. J. Dulin, E. P. Ryan, Joseph Connell, Fred Viner, Allie Norton, H. O. Schmidley.

At East Side Odd Fellows' hall last evening the Inning Club enjoyed the fourth of its series of dancing parties. From the time the first number was played the affair took on more life and animation than had been manifested on any previous occasion. For this the excellent time of the music, the introduction of a few square dances—such as the old folks' quadrille—and the correct temperature of the hall were largely responsible. The festivities continued until 12:30. Among the visitors present were: Mr. Passage of Buffalo, Mr. Ackley of Beloit, Mrs. Jessie Spellman-King of Rochester, Minn., and Miss Leah J. Haile of Chicago.

Miss Leah J. Haile, who has been a guest of the Misses Bostwick, returned to Chicago this morning. Her many friends in Janesville will be interested in the announcement that she is to be wedded in the very near future to John Fitzgerald, a friend of her childhood who holds a responsible position with the National Cash Register Co. at Montreal, in which city she will make her future home.

Robert Burns was born on Jan. 25, 1739. His birthday anniversary in these parts is generally one of the stormiest days of the year. The Caladonian Society will break the hoodoo this time by giving their annual entertainment on the night previous—tonight.

Mr. and Mrs. W. S. Jeffris and David Jeffris will leave for Cleveland, Florida, tomorrow morning. Mr. and Mrs. H. F. Bliss departed for the same destination this morning. F. J. Bailey and family and Miss Mabel Greenman will start for this winter resort on February 5.

After patient preparation involving not a few hard bumps, the young people who attended the private roller skating party last week will again try their skill at the rink tomorrow evening. The Imperial Band will play.

Mrs. H. W. Frick and Miss Harriet Sanger yesterday entertained a company of ladies at cards at the Frick home on Wisconsin street. A delightful time was enjoyed by all the participants.

The Misses Helen and Maude MacDonald entertained the members of the E. O. U. club last evening. "Five Hundred" was the diversion of the occasion and refreshments were served.

Word received from Phoenix, Arizona, is to the effect that Mr. and Mrs. Ogden H. Fethers were to depart during the present week for San Diego, California.

Mrs. George M. McKee entertained a small company yesterday for Mrs. George Mason of Chicago.

Mrs. Harriet Kavalege will entertain the Ladies' Afternoon Whist Club at her home on South Third street Saturday next.

Mrs. Richard Valentine and Miss Anna Valentine have issued invitations for a card party, at which they will be hostesses next Wednesday.

Mrs. Mary Doty will entertain the Duplicate Whist club at her home on Park Place Saturday evening.

Mrs. E. F. Carpenter entertained the sewing society of the Christ church guild at her home on East street Tuesday afternoon.

George S. Parker went to Chicago this morning.

Mrs. Tom Jeffris and children left yesterday for California.

Mr. and Mrs. R. B. Remite of Merrill are visiting in the city.

Marriage License: Application for a marriage license has been filed by Charles F. Willie and Lizzie E. Hiller, both of Janesville.

10,000 read Gazette want-ads daily.

KICKERS' KOLUM

To the Public: This column is open to any person who desires to call attention to any matter pertaining to the general good and welfare of the city. Personal matters and personal differences have no place in this column and will be excluded. All "copy" must be written on one side of the paper and signed by the writer's name and address. This will not be published unless desired. All "copy" presented for consideration is subject to editing before appearing in the paper.
EDITOR, GAZETTE.

Those Walks

To the Editor: I have seen several statements in the Gazette that I doubt regarding the condition of the walks about the city after snowstorms. I spent a goodly portion of yesterday driving about the city to see for myself if the walks were cleaned, for my personal gratification. I found up to four o'clock that but a small portion of the walks were entirely free from snow. In some places a path had been shoveled through the drifts and in others a path had been tramped down. I also noted that Street Commissioner Bennett had his men busy preparing for any thaw that might come, by cleaning out his gutters. Some one ought to have authority to compel property owners to clean their walks after storms.

Horse Speeding

To the Horsemen: I do not just know how to reach the horsemen of the city except through the columns of the Gazette, so make a general plea for a continuation of the old-time speeding contests on the Gas-House pond or in some other locality. These interesting contests we used to have are interesting to horse owners and pedestrians alike. For if a man can not ride he enjoys seeing others do so. I myself am not a horseman, but enjoy seeing good horse flesh contesting in a spirited race. Will not some horseman sufficiently interested in the matter call a meeting of horsemen for the purpose of reorganizing the old racing contests?
"A PEDESTRIAN."

That Long Wait

To the Editor: I was much pleased last evening to notice that the Gazette explained the long wait at the Opera-House on Monday night and gave the credit where credit was due for the annoying circumstance. Manager Myers deserves much credit for the line of attractions he has brought to Janesville in the past. He should be encouraged, not condemned without a hearing, for accidents that will occur. I made a personal investigation of the occurrence, and find that the blame lies with the management of May Irwin's company, not Mr. Murdoch Myers or his treasurer, Mr. Murdoch.

A THESPIAN.

Beautify the River
To the Editor: The common council have blunderingly happened upon one of the keystone of the city's prosperity in their endeavor to preserve the identity of the Rock river as a river, not as a refuse heap for ashes and other debris that may be thrown in. At one time the Rock river was the connecting link between Janesville and civilization and today is a beautiful stream marred by the hands of mortals. Stop the destruction of Janesville's pride. Mr. Aldermen, in some way "LOVER OF NATURE."

Beats Slang Anyway

Monseer Le Editor: What does "Mergy bokko" mean? They tell me it's French for "Much obliged" and that it is being injected into our local conversational currency because a coterie of young ladies in Janesville has found a new social diversion in studying the language of the "parleyvoos" and are seeking practice. Some of them assert that the study's really more fun than roller skating. That's coming some. In the line of original research these enthusiasts have translated the inscription on the sugar-factory bus—"Fais ce que vouldras" or something like that. It is declared to mean: "Do any old thing—I don't care a little bit" and is reputed to be the motto of one of our local Yankee families that formerly used the vehicle on camping trips. All of which is a mighty sight more interesting than plain dusting or sewing; not quite as useful in this particular community as the "Root mon" or "Go brag" dialects, but a heap sight better than the corrupting English slang we hear so much of. Perhaps we have no lack coming. At least, we can stand it if they can. Maybe, too, they will be able to accomplish some real good for a long-suffering people by establishing a standard and authoritative pronunciation of "chauffeur." Is it "show-fer" or "shawfer"? Most of us have no definite expectations of ever owning or being one, but we'd all like to know.
ZHUNNY PA COMPRE.

Lowell Is Delighted: J. B. Humphrey of the Lowell Realty company today received a letter from his partner, E. W. Lowell, who is now in Port La Vaca, Texas. The writer says he is delighted with the country, its climate, its soil and its people. He calls the state the garden spot of the world and says it is far ahead of Rock county.

STATE NOTES

Three hundred and fifty employees of the United Cigar manufacturers' warehouse at Portage went on a strike on Monday for a raise in wages from 75 cents to \$1 per hundred. C. B. Shannon, the manager, succeeded in getting the force back to work at the old schedule.

Adolph Janson, Menominee, Mich., blacksmith, made a \$10 bet with A. P. Westergren that he could make a visit at his old home in Sweden and return in six weeks. Janson returned to Menominee with one day to spare. This is Janson's fifth trip to Sweden.

The Columbia County Good Roads association has been organized at Portage with these officers: President, C. C. Vayland; Portage; vice-presidents, N. E. Van Dyke of Kilbourn and T. McMahon of Port Winnebago; secretary, J. W. Hansen, Portage; treasurer, Charles Caldwell, Rio.

SLICED THE LAST
BEET YESTERDAY

ONE DEPARTMENT OF SUGAR
FACTORY COMPLETES WORK.

MANY MEN PAID OFF TODAY

Season's Run Will Be Ended This
Coming Sunday or Monday—
Began on October 1.

At nine o'clock last evening the last beet of the 1935 crop contracted for by the Rock County Sugar company was sliced. This marked the end of work in the cutting department and it will be but several days before the season's run will be completed. The men employed in the slicing room were paid off today, but those working in the other departments will be engaged for some time. The sugar-making machinery will be kept in operation till Sunday or Monday and the packing and shipping departments will be kept busy longer still.

Many Thousand Tons

Though it is impossible to know for some time yet the amount of beets that were cut this season, Manager Osburn roughly estimates that the aggregate tonnage will be between 54 and 55 thousand. This has meant the payment of an immense amount of cash into the hands of Southern Wisconsin farmers. In wages also enormous sums have been paid out to Janesville workmen and resultantly there is hardly a person in the community to whom some benefit has not accrued.

CHAMPIONSHIP WON
BY IROQUOIS TEAM

Schedule of Y. M. C. A. Intermediate
Basketball League Closed
Last Evening.

The last two games in a schedule of twelve in the Intermediate basketball league of the Young Men's Christian Association were played last evening. The Iroquois defeated the Blackhawks by a score of 22 to 14 and the Cherokees, hitherto invincible, trimmed up the Seminoles to the fast music of 29 to 26. The results gave the championship of the league to the Iroquois, placed the Blackhawks and Seminoles on an equal footing and pulled the Cherokees out from the absolute zero mark on the average card. The record stands:

Teams	Av.	Vic.	Def.
Iroquois	323	5	1
Blackhawks	540	2	3
Seminole	500	2	3
Cherokees	166	1	5

The Iroquois will be awarded a shield. The team is composed of B. Baker, captain, Merrill, Church, Parler and Booth.

LOCAL LACONICS

Hand Seriously Cut: Clara Carlson, employed as a machine knitter at the Lewis Knitting company's factory, suffered severe cuts on all fingers of one hand while at work yesterday and will be confined to her home for some time as a result.

Meet Tomorrow Night: The Ben Hur court will hold an installation of officers tomorrow evening. All members are requested to be present.

Secured License at Rockford: Chas. LoPinto, formerly of Janesville but now a resident of Beloit, and Mary Elisabeth Judd of this city have secured a permit to wed in Rockford.

Betrothed Married: Miss Kittle Arnold and Dan West, both well-known residents of Beloit, were united in marriage here yesterday by Justice Earle, having secured a special permit to wed. The groom is employed as a machinist in his home city.

Look for Factories: The Janesville Advancement Association is busy just at present with several propositions for new factories that are being located in Janesville and something definite is soon to be expected.

Storm Played Havoc: Attempts to talk with Chicago over the long distance telephone reveals the fact that the recent storm has more than played havoc with the telegraph and telephone service of the Windy City and that they are having serious difficulty there still even though this is the second day after the storm.

Sunday Night Murphy Meeting: The Sunday night meeting to be conducted by Francis Murphy at Blanchard hall gives promise of being one of the most interesting held since this old war horse for temperance recovered his health. There will be several especially interesting musical features, and included in these will be violin solos by Miss Marian Boward, and vocal solos by Miss Stella Calender and other well-known vocalists. Murphy will speak on the theme, "Give us this day our daily bread." Incidentally, he will give his views on the right of every person to have the opportunity to earn his daily bread without restriction from unions or other bodies that would undertake to say just who shall and who shall not be allowed to work at their trades.—Los Angeles paper.

BEST BREAD

Tomorrow (Thursday) we will sell you fresh baked bread, if you take it with you, or with bread at 3c a loaf. The low price of the best hour now makes 3c bread a possibility.

DRAGGING

down pains are a symptom of the most serious trouble which can attack a woman, viz: falling of the womb. With this, generally, come irregular, painful, scanty or profuse periods, wasteful, weakening drains, dreadful backache, headache, nervousness, dizziness, irritability, tired feeling, inability to walk, loss of appetite, color and beauty. The cure is

WINE OF CARDUI

that marvelous, curative, extract, or natural wine, of herbs, which exerts such a wonderful, strengthening influence on all female organs. Cardui relieves pain, regulates the menses, stops drains and stimulates the womb muscles to pull the womb up into place.

WRITE US A LETTER

Put aside all timidity and write us freely and frankly, in strictest confidence, telling us of your symptoms and troubles. We will send you a free trial bottle of Cardui, in plain, sealed envelope, how to cure them. Address: Ladies' Advisory Dept., The Chattanooga Medicine Co., Chattanooga, Tenn.

"I SUFFERED AWFUL PAIN"

In my womb and ovaries," writes Mrs. Naomi Baker, of Webster Groves, Mo., "also in my right and left sides, and my menses were very painful and irregular. Since taking Cardui, I feel like a new woman, and do not suffer as I did. It is the best medicine I ever had in my house."

AGREE ON RATE BILL

Amended Measure to Be Reported Unanimously by Committee.

Washington, Jan. 24.—The house committee on interstate and foreign commerce has agreed upon a rate bill to be known as the Hepburn bill and to be reported to the house with the unanimous recommendation of the eighteen members of the committee. In the main the bill is the original Hepburn bill, but a number of concessions were made to the Democrats and their ideas as set forth in the Davey bill were freely incorporated in the perfected measure. The members of the committee assert confidence that the successful outcome of their long conferences will have marked effect upon the attitude of the senate toward the measure. Mr. Hepburn and the other Republicans agreed to accept the wording of the Democratic bill in the provision for the fixing of the maximum rate. The amendment which was accepted provides that the commission shall fix a "just, reasonable and fairly remunerative rate," which shall be the maximum rate. It was maintained by the Democrats that under the original Hepburn wording the commission was required to fix the highest of the just, reasonable and fairly remunerative rates, in case there were several such rates. The amended bill also provides for seven members of the interstate commerce commission instead of nine, as was provided in the original Hepburn bill. Another amendment incorporated at the request of the Democrats provides that, in cases where no damages are assessed, the commission may simply state its conclusions and need not set forth its findings. Another amendment provides that orders of the commission shall continue in force for three years unless repealed.

Chinese Visit Washington

Washington, Jan. 24.—The Imperial Chinese commission sent to this country by the Emperor of China to study American social, political and industrial conditions, arrived here Tuesday on a special train from Chicago. They were met at the station by Mr. Denby, chief clerk of the state department. The party traveled under the care of Prof. Jenks, the economist of Cornell University, who was appointed by the United States government as its special representative to look after the commission's interests while in this country. Professor Jenks resided a long time in Peking and is in close personal touch with the leading men of the Chinese empire. The members of the commission called upon Secretary of State Root and visited the state, war and navy departments.

Platt Says "Hill" Boss

Washington, Jan. 24.—"I shall not go to the White House again until the President sends for me," said Senator Platt. "I have not been there since I returned from the Virginia 'Hot Springs.' It is useless for the Brooklyn Republicans to select a candidate for the office of the port of New York. I shall take that subject up at the proper time and make a recommendation. Nothing else is necessary. I am the boss and suggestions from other sources are useless. I shall insist on the reappointment of James S. Clarkson. The president is quoted as saying that Clarkson will be reappointed."

Sympathy for Brazilians

Washington, Jan. 24.—Immediately upon receipt of official news of the destruction of the Brazilian battleship Aquidaban Secretary Bonaparte sent the following telegram to the Brazilian minister of marine: "On behalf of the American navy, permit me to extend to the Brazilian navy and all others concerned the deepest sympathy for the loss of life they have sustained in the unfortunate destruction of the battleship Aquidaban."

Annual Meeting of Jamesville Advancement Association

The annual meeting of members of the Jamesville Advancement association will be held on Thursday, January 25, 1906, at 7:30 o'clock p. m. at the office of New Gas Light company, Jamesville. At this meeting directors will be elected for the ensuing year and such other business transacted as may properly come before the meeting.

I. F. WORTENDYKE, Secretary.

Be sure and read the next serial.

CHINA'S SLEEP OVER.

Native Editor Says She'd Have Huge Army in Ten Years.

Ng Poon Chow, a relative of the popular Wu Ting Fang, ex-Chinese minister to the United States, in addressing the Presbyterian Ministers' association at New York the other day told the Chinese view on the question of exclusion. Mr. Chow is the editor of the Chung-Sai Yat Po of San Francisco.

He told of a distinguished Chinese professor who came to the United States to attend the Presbyterian general conference at Buffalo and who was held in the detention quarters at San Francisco for three weeks and who narrowly escaped deportation because he was not a teacher according to the letter of the law, but merely a professor with the degree of LL. D.

Mr. Chow said: "The Chinese government does not ask that you open wide your doors to Chinese immigration. As a matter of justice, you ought to, unless you will lock your doors to the undesirable immigration from other countries. But we do insist for the present at least that you make a definition which will be positive. This would exclude laborers, but admit all others."

"The war between Russia and Japan has awakened China from her centuries of slumber. She now understands that she must be prepared to kill as many people as possible with the least expense to herself if she is to be respected. In ten years we will have a standing army of 500,000 men, well trained and well equipped. But remember, China will never be an aggressive nation. She will be able to protect herself."

"Every drop of blood drawn by the lash shall be avenged by the sword," said your Lincoln. Every repressive measure must come back to plague the oppressor. China can do much to harm American commerce, but before doing that she asks for your justice in dealing decently with her honored men, even if you will exclude her common people. China must not be treated as she has been in the past. She will never again submit to what she has suffered in the past."

NEW INDOOR TARGET.

Major John J. Dooly of Portland, Me., assistant inspector general of rifle practice, has perfected a target for rifle practice in armories by organizations of the national guard, says a Portland special to the New York World.

The target is composed of two thicknesses of plank, supported by a frame resting on a base which holds the target upright and allows of its being moved to any part of the armory. There is a small space between the front and rear sections of the target, and while on the front section is placed the target itself there is on the rear section a steel plate to prevent the bullets penetrating both sections. The space between the sections allows the bullets to drop to the floor after they have struck the steel plate. The front section is so arranged that the pieces against which the target will rest and which will of necessity become badly perforated after continued use can be removed by sliding them from the frame and new pieces substituted.

"PORK AND" LOOKING UP.

Austrian Prince to Introduce Savory Dish to His Princess.

Pork and beans in the pan, family style, is about to be introduced to the tables of the nobility of Austria, says a special dispatch from Stamford, Conn., to the New York World.

Dr. Robert T. Morris of New York recently had as guest at his country place, Merriewood, the Prince of Coleroid Manfred of Austria, who was treated by the housekeeper, Mrs. J. C. Wright, to an old fashioned New England dinner, with pumpkin pie, apple sauce, homemade pickles and pork and beans. The latter won the royal guest's heart.

"You must give me the recipe for preparing this delicious dish," said the prince. And the proud housekeeper wrote it down. The prince said he would see to it that his princess introduced the dish into his castle.

Blond Jews in Jerusalem. Of the 50,000 inhabitants of Jerusalem two-thirds are Jews; many of them have blond hair.

Gazette wants reach 10,000 people.

SIXTY-TWO CATTLE CONDEMNED FRIDAY

Two Uppers Corners Herds Nearly Wiped Out by Tuberculosis.

[SPECIAL TO THE GAZETTE.] Uppers Corners, Jan. 23.—Out of seventy-five head of cattle owned by Wm. Frank, forty-two were found to be affected with tuberculosis, and out of twenty-two owned by Otto Burg, twenty were condemned Friday. They will be sent to Milwaukee to be killed. The situation along this line begins to look serious.

Married in December. Ernest Kreuger returned from Neillville last week where he had been since December 6, on which date he was united in marriage with Miss Emma Holtz of that place. Mrs. Kreuger remained for a season but will join her husband soon. They have both engaged to work for Mr. and Mrs. M. Magoon this summer.

Uppers Corners Items. Geo. Hull made a business trip to Avalon one day last week.

Miss Eliza Hadley has gone to Hebron for a few days' visit with relatives.

John Waters and Seymour Blunt of Whitewater, were callers on friends here Saturday.

Mr. and Mrs. Van Sturtevant were recent visitors in the city of Jamesville.

This locality was visited by a regular July thunderstorm Saturday evening and the country is covered with small lakes, the names of which cannot be found on the map.

Alvin Smith and family of White-water were recent visitors at the home of Mr. and Mrs. C. L. Hackett.

The patrons of the town line creamery filled their ice house with an excellent quality of ice from Whitewater lake last week.

E. Hadley is getting material on the ground preparatory to building a new barn in the spring.

H. Dixon of Lima bought a fine young driving horse of Roy Farnsworth Friday. Now he is driving as fine a span of bays as one often sees.

Mr. Farnsworth took a three-year-old "Blue John" colt in part payment.

NEWS OF HAPPENINGS

PEOPLE IN EDGERTON

[SPECIAL TO THE GAZETTE.]

Edgerton, Jan. 22.—The usual services were held on Sunday at the Congregational church. At the evening service the music was unusually fine—several numbers being given by a double quartet of male voices. L. J. Dickinson also sang a solo. Rev. Parrish addressed was especially to the men—it being a men's service and given by the men.

James Wileman who has run a cigar store in the Schmeling block for the past couple of years has sold his stock to the M. J. McDonough Cigar Co. and he will discontinue business. The vacant store will be occupied after the first of the month by a barber shop under the management of Orin Gierke.

Joe Bimberger has been visiting the local tobacco market the past week.

A load of the local high school students were pleasantly entertained on Saturday afternoon at the home of Ida Murwin in Fulton.

Mr. and Mrs. C. S. Farman came up from Jamesville to spend a few days with local relatives.

Mrs. E. B. Finch of Minneapolis is the guest of her sister Mrs. Fred Jensen.

Miss Rose Anderson, who has been visiting her brother Alfred Anderson visiting her brother Alfred Anderson the past two weeks, returned to her home in London Monday.

Miss Lucy Whitmore came up from Jamesville to spend Sunday with her sister, Miss Emma Whitmore.

Harry Sloan and Fred N. Coon R. J. Matress came up from Orfordville to spend Sunday at home.

Anne Nelson was a Stoughton visitor on Sunday.

Wm. Parr of Oregon was an over Sunday guest of his sister, Mrs. John Matress, Sr.

HOST FORCES INSURANCE COMPANY TO SETTLE CLAIM

Broadhead, Jan. 23.—Springfield Insurance company forced to settle. Insurance Commissioner Host brings large company to line in settling the loss of Pierce and Marshall hardware store.

A representative of the Springfield Fire Insurance company was in the city last Wednesday and paid the share of that company with a smile—a forced smile. This company had withheld settlement for some time to the great inconvenience of the proprietors of the hardware store. Insurance Commissioner Host notified them that they must settle at once, and they did.

Lives Are Endangered. The question now up to the business section of this town is, will the opera house block that was destroyed by fire sometime ago be rebuilt. The structure as it now stands represents a very disagreeable appearance in comparison with the other buildings on exchange square. General sentiment says it should be torn down, as a big wind might blow the high brick wall over into the street and now endangers the lives of passersby. It has not been learned whether the present owners are going to rebuild it or not. H. M. Shorb of Durand, Ill., has made an offer for the block but whether it has been accepted or not is not yet known.

Needs A New Depot. A well-known commercial traveler who makes this city quite frequently was heard to remark recently that Broadhead needs a new passenger depot and that Broadhead citizens think he told the truth. This station is now quite an old structure with small waiting rooms and poorly lighted at night.

Center, Jan. 22.—Farmers are busy delivering their tobacco nowadays. J. S. Roherty delivered his tobacco to Evansville Friday Saturday.

Clayton Fisher of Madison was home over Sunday.

C. H. Hemmingsway, county superintendent came out from Jamesville to attend the Andrew Snyder wedding Wednesday evening.

Mrs. Bidwell has been suffering with grippe the past week.

F. H. Fuller is on the sick list.

Mr. and Mrs. George Wanslow and son Fred of Jamesville spent Sunday with her parents Mr. and Mrs. Bid-

well. This is one of the best paying stations on the line.

Brookhead Brevities. Miss Melan of Monroe was the guest of Miss Lotta Fieck in this city last week.

Mrs. J. F. Sweeney of Jamesville was the guest of Mrs. H. P. Clarke during her stay in Brookhead last week.

CATTLE IN SOUTHWEST LIMA AFFECTED WITH TUBERCULOSIS

Southwest Lima, Jan. 23.—Otto Burg and Frank Brothers had their cattle tested the past week and found the most of both herds to be afflicted with tuberculosis.

We are enjoying a little winter weather at present.

Some from this vicinity attended the local fair Thursday evening.

John Lackner and Will Shimmel were callers at Will Chamberlain's Saturday.

Mrs. John Lackner and Thos. Branks were callers in Milton and Milton Junction Thursday afternoon.

Mark Baker and John Lackner, assisted Will Shimmel in loading a car of baled hay and straw Saturday.

FORMER FAIRFIELD RESIDENT HAS PASSED AWAY IN CHICAGO

Fairfield, Jan. 22.—The sad news reached here from Chicago of the death of Mrs. Ed Holmes. She has been a patient sufferer of rheumatism for many years. The interment was in the Milton cemetery Friday. Her many friends will remember her as the sister of Mrs. James Cutter.

Notwithstanding the stormy night and bad roads Saturday night, a large crowd witnessed the interesting ceremonies of joint installation of the M. W. A. and R. N. A. lodges. A bountiful supper was served and a pleasant time was enjoyed by all.

Mr. and Mrs. Herman Jackson are the proud parents of a ten-pound boy, born January 17.

Mr. Schwartz of Walworth is greeting old friends in this village.

Mrs. Brodum had the misfortune to fall and break her left arm one day last week.

Mr. and Mrs. Charles McCarthy and son Glen of Jamesville have been visiting friends here the last week.

A. L. Thompson returned from Texas last Tuesday and reports a pleasant trip.

Mr. and Mrs. Ed. Dykeman of Delavan attended the M. W. A. and R. N. A. installation Saturday night.

A. W. Chamberlain and Will More were in Chicago Thursday on business.

A. L. Thompson and Will Casper shipped a carload of hogs to Chicago one day last week.

Wilson Dodge expects to go to Memphis, Tenn., soon.

Miss Corey spent Saturday and Sunday in Sharon.

A number from here attended the dance in Avalon Wednesday night.

COOKVILLE

Cookville, Jan. 22.—E. M. Stebbins and wife spent Wednesday evening at the home of Mr. and Mrs. Wm. Lee.

Messrs. Harvey and Claude Danks of Madison road were callers last week Monday.

Joseph Porter, Sr., who has been sick for over a week, is in a critical condition.

Fred Miller and wife transacted business in Stoughton on Thursday.

Mr. and Mrs. E. Johnson were Stoughton visitors on Thursday.

Mrs. Carl Beckman has been sick and under the doctor's care for a few days.

Mrs. Gertrude Bartlett, who has been sewing for John Larson's family for the past week, returned home on Saturday.

James Gillies and wife were Stoughton visitors on Saturday.

Mr. and Mrs. Leedle Denison spent Thursday evening at the home of F. Newman, south of town.

Mrs. John Jensen has been sick for a few days. Dr. Colony is the attending physician.

Little Daisy Stewart is sick with the measles.

Charles Miller and Carl Becham delivered their crop of tobacco on Monday.

The whist club met on Friday evening at the home of Mr. and Mrs. Wm. Lee, where a most enjoyable evening was spent by all present. G. E. Newman and Mrs. Hattie Newman were the lucky prize winners.

JOHNSTOWN

Johnstown, Jan. 22.—August Scherline shipped a carload of hogs to Chicago last week.

Mr. and Mrs. L. Nickerson entertained eighteen of their friends last Thursday evening, January 18, in honor of Mrs. F. M. Sackett, sister of the former.

Mr. and Mrs. H. Cary of Jamesville spent Saturday with relatives.

Mr. and Mrs. P. J. McFarlane attended the funeral of their friend Mrs. Holmes at Milton Junction last Friday.

J. Delaney of Richmond won the highest score at the pigeon shoot last Saturday. I think our boys need to practice up a little.

Mr. and Mrs. E. A. Carter enjoyed a visit from Mr. and Mrs. T. Cavaney of Richmond Wednesday.

Hattie Peterson has been out of school the past week sick with a bad cold.

Mr. and Mrs. W. Graylor visited relatives in Fairfield Saturday.

Dr. Rice of Delavan was called to see J. L. Haight last week.

Rev. W. B. Meads of North Johnstown will hold meetings all this week at the M. E. church in Richmond beginning Monday, January 22, with the stereopticon. All come—admission free.

Mrs. Olive Handy was a guest of Mrs. P. J. McFarlane last Wednesday.

CENTER

Center, Jan. 22.—Farmers are busy delivering their tobacco nowadays. J. S. Roherty delivered his tobacco to Evansville Friday Saturday.

Clayton Fisher of Madison was home over Sunday.

C. H. Hemmingsway, county superintendent came out from Jamesville to attend the Andrew Snyder wedding Wednesday evening.

TO REVIVE INDIAN MUSIC

Suggestion That Reservation Schools Teach Mystic Songs.

IDEA OF COMMISSIONER LEUPP.

His Recommendation to Congress That Music Be Taught in Government Schools For Indians Enthusiastically Approved by Old Chiefs. Favorite Song of a Squaw.

Indian Commissioner Leupp's recommendation in his annual report to congress that Indian music be taught in the government schools for Indians is receiving the enthusiastic approval of the old chiefs on the reservations, but the younger Indians know scarcely more about Indian music than the average white man of the west, says a Yankton (S. D.) correspondent of the Cincinnati Enquirer.

No suggestion more to the liking of the grizzled warriors, who spend much of their time mourning over the departure of happy days when they could dance, sing and fight, has been made by an Indian commissioner in recent years. With the revival of the Indian music there is certain to be an awakening of the Indian spirit, the heritage of centuries of wild life on the plains and in the forests, and with these there is sure to come some restoration of the manliness for which the race was noted and for lack of which the Indians are struggling with disease and debility.

Few, indeed, have any idea of the real Indian music. The reds do not parade their national songs or their musical instruments. Whatever their practice in wild life, Indian music cannot be heard now except at long intervals, when the tribes are engaged in some impressive ceremony. But there is real Indian music, as tuneful and as sweet as the American songs which they have learned to sing in recent years. There are joyous, fanatical, or warlike songs of the dance, the solemn or strangely weird song of lamentation and the self-satisfied song of work. The words of many of the songs have a beauty all their own. A mystic sort of fervor runs through them, and some of them are fairly thrilling even when robbed of their picturesqueness by translation.

Old Indians are now looking forward to the day when their songs will be commonly sung on the reservations and again give them an opportunity to pour out all the disappointed hopes of years, the heartaches and homesickness. They formerly sang of all the white men sing, of and begged the Great Spirit to pity their desolation. They sang until the mind ruled the poor starved body, and then in a trance the old Indians could see all for which they yearned.

Again they are to sing the songs, and they are rejoicing that they are to be left forever in the minds of the younger generation; that they may see, as their fathers have seen many a time, the home scenes of years of plenty; watch again the making of the pemican; hear again the wind whistling through the tope poles, while within the fire burned brightly and the games went merrily on.

Old Indian women on the South Dakota reservations remember when they were expecting visits from friendly tribes, and when they offered the hospitality of their wigwams to the wayfarers, and this was the simple song they would sing:

"I am mashing the berries. They say travelers are coming on the march. I stir the berries round; I stir them around; I take them up with a spoon of buffalo horn. And I carry them, I carry them to the strangers."

While the men remember times on the hunt when they sat on the backs of their ponies waiting for the return of the runners who had been sent out to locate the buffaloes, and in their loneliness they would sing:

"Hail! They have come back racing. Why, they say there is to be a buffalo hunt here. Make arrows. Make arrows. Says the father, says the father."

Stretched on the grass in front of her wigwam an aged squaw was asked what she considered her favorite song, and she explained that she always sang about her mother. She said she remembered when a girl she would see visions of her dead mother, and she would sing:

"Mother, come home; mother, come home. My little brothers go all about crying. My little brothers go always about crying. Mother, come home; mother, come home."

Such songs as "Rock of Ages" and "Blest Be the Tie That Binds" are favorites among the Indians, while a song written by a western man called "Logan's" in which there is the line "Across the western plain there comes a joyful strain," is known to almost every Indian of the church.

Besides the religious songs of the Indians there are songs of hunting, songs of war and of work, which are gayest than the religious songs. The Indians love to sing while they are at work, and many of their best songs were those sung by young girls, who do much of the work about the lodge.

Fox Hunting on a Bicycle.
At the last meet of the East Kent Foxhounds in England the master, Selby Lowndes, followed the hounds on a bicycle, says the London Express. His horse became exhausted, and he borrowed a bicycle from a lad whom he met and was in at the finish.

Record Depth For Gold.
Gold is on exhibition in the mining department at Melbourne, Australia, found in the New Chum mine, Bendigo, at a depth of 4,200 feet, the record depth of gold discovery.

state and Presley M. Riser as surgeon general and chief of the bureau of medicine and surgery in the department of the navy.

Gazette wants reach 10,000 people.

HOW WOULD YOU LIKE TO BE THE ICE MAN?

He Certainly Has a Hard Problem to Solve Now—Where Is There Ice?

Unless something happens, and happens soon, the ice men are going to have a difficult time securing enough solidified water to supply their patrons with coolness during the coming hotness. The ice harvest was under way, and the City Ice company had commenced filling their warehouses when the last of those three January thaws came. That destroyed the ice. Then it rained Saturday night and the ice up the river broke up and came down. It arrived here just at the time when the cold wave lit upon this part of the country. It packed in where the crop is usually gathered and now there is a mass of chunks there from which it would be impossible to secure enough ice for one delivery. Just what is going to be done is a problem that bothers the ice men. Another thaw and a freeze-up might be of benefit and might not. But then these two things are not sure of coming. One of the plans which the local company is considering is the clearing of a place in the river. Here enough smooth ice to keep the markers and cutters busy would form in a few days and the harvest could be started. This process could be repeated and it is probable that a full crop could be gathered. This method was used some years ago when conditions were similar. Henry Tall of the local company was in Beloit and Rockford yesterday comparing notes with the ice men of those cities.

STATE TREASURER IS ASKED FOR HIS HELP

Location of Man Who Died in the "United States" Is Asked For by Attorney.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Jan. 24.—State Treasurer John J. Kempf is in receipt of a letter showing the unusual inquiries that are sometimes made of state officials. Jacob D. Brown of Newark, New Jersey, commissioned by a number of heirs of a lost estate, asks the state treasurer to help him locate the property of a man, Claus Peter Wraga, who died "some place in the United States of America, time and place unknown." About ten years ago, the letter states, a newspaper of Hamburg, Germany, printed an advertisement searching for the heir of this man Wraga, who was born in Glashutte, Germany, a place near Hamburg. This advertisement was read by interested parties, but no trace of the paper in which it was published is now to be obtained. It is understood that the man died possessed of a large estate which has perhaps escheated to some American state.

No trace of this supposed lost estate is to be found at the Wisconsin capitol. In this state the real property of persons dying interstate and without heirs goes to state, but the personal property goes to the county in which the deceased resided. If Wraga died in Wisconsin, no real property belonging to him escheated to the state, but he may have left personal property which reverted to some of the counties. Usually such estates are eaten up by attorneys' fees and the county or state gets little or nothing. Treasurer Kempf recalls an estate worth several hundred dollars, out of which the state got seven cents after all fees and costs of administration were paid.

SPARKS FROM THE WIRES

It is understood at Pittsburg that Captain Castro and crew of the Alberta will be honored by the Carnegie hero fund commission. They will receive medals or money, possibly both, for their work in rescuing the passengers from the Cherokee at Atlantic City.

Dr. Herwin Uroop, who was re-elected president of Lebanon Valley college at Annville, Pa., states that he will not accept the position. The senate has confirmed the nominations of James B. Scott, California, as solicitor for the department of Miss Johnson, a school teacher, and Dr. L. A. Winn were injured by a runaway team at Poynette. Miss Johnson was struck by the team and Dr. Winn, who attempted to stop the horses, was dragged a considerable distance.

Irish Party Gets \$10,000.
Boston, Jan. 24.—An order for \$10,000 was called to John Redmond, M. P., in Dublin, by the national officers of the United Irish League of America, to enable the Irish party to fight the remaining contests in the general election.

Telegraphs for Help.
Kingsbury, Ind., Jan. 24.—While two men were trying to force an entrance into the station Miss Carrie Scott, the operator, telegraphed to McGee Crossing for aid. Help was sent on an engine.

Successful Revival.
Elgin, Ill., Jan. 24.—Evangelist Biederwolf, who is conducting a series of religious meetings, is converting between twenty-five and 100 persons a day.

Excellent Neighbors.
Col. Quackenboss built his new house at the edge of a cemetery. "Wherefore?" questioned friends, protesting against the choice of situation. "Just a fancy of my own," replied the colonel. "The dead are excellent neighbors."

Lights Up Its Nest.
The baya of India has the curious habit of fastening fireflies to its nest with moist clay. On a dark night such a nest might be taken for an electric street lamp.

MANY CANDIDATES IN FIELD FOR CREWS

Interest in Trip to Poughkeepsie. However, Has Lapsed Considerably.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Jan. 24.—Eighty-five students are daily working on the rowing machines in the University of Wisconsin gymnasium in preparation for the crew work of the spring. Of this number fifty-five are candidates for the freshman eight and thirty are trying for the varsity shell. The aquatic department is popular with the students because it usually involves a fine trip east, when the Wisconsin crews go to take part in the annual intercollegiate regatta on the Hudson river at Poughkeepsie. The probability of sending crews east next June, however, is very slight, as the ruination of the game of football will doubtless diminish the receipts of the gridiron department of the athletic association so much that there will not be available the necessary \$1,500 to send the crews east. As the students here discuss the changes in football proposed by the recent faculty conference at Chicago, which proposals will assuredly be ratified by the faculty of the University of Wisconsin, it is taken as a foregone conclusion that the undoing of football means the abandonment of crew work as a regularly organized and well maintained department of athletics at Madison. In the squad working under the direction of Coach Andrew M. O'Dea for places in the varsity shell there are 21 students who have had experience at rowing, as members of former crews or leading candidates who did not secure regular places. Three of these, Burling, Levisse and Johnson, have rowed in the varsity boat for three years. The experienced candidates for the varsity boat, with their weights, are as follows: Burling, 155; Levisse, 172; Hine, 165; Davis, 180; D. Miller, 193; Ryder, 175; Wilder, 175; Johnson, 170; Lea, 168; Bechler, 158; Ruth, 165; Larson, 175; Cooper, 168; Cortelyou, 170; Richter, 156; Foster, 176; Schmandsky, 175; Brerton, 165; Sheldon, 159; Schlappkohl, 159; Atkinson, 164. For the coxswain's seat, Burke, who has had two years' experience handling the varsity crew in races, and Phelps, with one year's experience, are trying. The material this year is slightly heavier than that of last season.

HOW JAP STUDENTS CHEAT

Pay for One Tuition Only and Learn Enough at Least for Two.

While Minister Takahira was at Portsmouth, he one morning chanced to overhear a remark made by a Rockingham guest, who ventured the opinion that lazy and slothful nations disliked the earnest, progressive little Japs—disliked them because they dreaded them. Half smiling the diplomat from the Land of the Rising Sun turned, relates the New York Times, and with an apology for taking part in the conversation, said: "Excuse me, gentlemen, but I heard only the other day something which bears most closely upon what you say. 'It was in Washington, and two ladies whom I have the honor of knowing were talking. Said one: 'The Japanese should be excluded from America. No sooner do their young men come over here and marinate in our schools and colleges but they begin a systematic course of cheating.' 'You don't say so!' exclaimed the other; 'why, how is that?' 'Quite simple,' returned the first speaker. 'They only pay for one tuition, and they always learn at least enough for two.'"

GRAND OLD SPANISH RELIC

Mission Building That Presents a Striking Picture to the Traveler.

Of all the missions in California, the Santa Barbara mission occupies the most commanding position, writes Page Fellowes, in Four-Track News. Standing on an elevation 300 feet above the sea, the white facade and long corridor may be seen from far out on the ocean, forming a striking object to sailor or tourist. Back of the mission the mountains rise to a climax of grandeur, on the other side rolls the fertile country with lovely, little houses, half buried in flowers, shrubs and trees; and beyond the city gleams the peaceful sea dotted with gliding ships.

After entering the mission visitors are received by Brother Huygoline, the noted almoner. He is a most interesting man, very cordial to strangers, pleased to show them about, and prepared to answer all questions regarding the mission except those about the "Mysterious Garden." His account of the early mission days is most vivid.

Coughing Saves Your Life.
A cough, is the response to a danger signal, which says that something is irritating the delicate mucous membrane which lines the air passages leading to the lungs. This cause of irritation may vary, but in the common cough of winter it is some offending matter, which nature seeks to clear off and expel by means of the compelling cough, lest it should block the bronchial tubes, and cause suffocation. The sensitive nerves that belong to these vital tubes act as sentinels, and send a message for succor to the brain, which at once responds to the call by dispatching orders to the chest muscles. These then contract violently with one accord, and force out the air in a cough, which carries with it the cause of irritation.—Stray Stories.

The Real Thing.

"Did you secure your title of 'colonel' in the army?" asked the formidable frank person.
"Certainly not," replied Col. Stilwell. "It is the expression of genuine esteem by my friends and neighbors; not a mere formality of red tape."—Washington Star.

FIVE ITALIAN MINERS VICTIMS OF SNOWSLIDE

Avalanche Sweeps Everything in Its Path, Including Blacksmith Shop and Tram Cars.

Silverton, Col., Jan. 24.—Five Italian miners employed at the Sunny Side mine lost their lives in an immense snowslide Monday afternoon. No particulars or the names of the men can be obtained as the telephone line is down and communication of all kinds destroyed. The mine blacksmith shop and several tram cars are also known to have been swept away. No trains from Durango and Denver have arrived here since Wednesday, Jan. 17, due to slides and immense drifts of snow which have blocked the tracks.

All the short line roads running to outlying camps are snowed in. There are eleven slides between Silverton and Elk Park. The slides average from seventeen to thirty feet deep and from 50 to 450 feet wide.

An immense slide went into the Animas river, forming a dam of snow and ice which caused the stream to back up and overflow the Rio Grande tracks to a depth of four feet.

It will be two weeks before traffic can be resumed between Silverton and Durango.

The Iowa mill in Arastra gulch has been crushed in by heavy snowslides which came down Little Giant mountain.

The storm, which has about spent its force, has been one of the worst ever known in this section.

GIRL SAVES MANY FROM DEATH.

Flags Two Trains and Prevents Crash Into Huge Bowlder.

Harrisburg, Pa., Jan. 24.—Two passenger trains on the Northern Central railway were saved from being wrecked by Mary McCall, aged 16 years, the daughter of a track walker living at Clark's ferry. The girl saw a huge bowlder roll from the mountain side on to the tracks near her home. Taking a lantern she ran down the track and stopped the Erie express within a few yards of the obstruction. She then hurried in the other direction and stopped the Erie fast line. The tracks were later cleared of the rock by a wrecking crew.

Planning New Electric Line.

South Bend, Ind., Jan. 24.—The Westinghouse Company of New York is preparing plans and estimates on contracts for the construction and equipment of the Indiana Rapid Transit Company's line from Terre Haute to South Bend.

Call Professor to Brown.

Providence, R. I., Jan. 24.—The Brown university corporation has called as professor of the German department Prof. Camillo von Klenze, associate professor of German literature at Chicago university.

MAKES WAR ON THE GRAND JURY

Attorney Files Information on Drugists Who Escaped Indictment.

Springfield, Ill., Jan. 24.—State attorney Hatch has filed information against druggists Albert Mitchell, Robert Clarkson and William Zapf, accused of selling cocaine. The grand jury refused to indict these men. Hatch is at war with the grand jury and declares he will file information against other offenders ignored by the jury. Among the cases turned down by the jurors was the one against Frank Dooling, charged with being short in his accounts with the court of honor. Unless this action is reconsidered Hatch will ask for a special jury.

RAILWAY TAX IS MUCH LARGER.

Wisconsin Fixes Valuation Nearly \$10,000,000 Above Last Year.

Madison, Wis., Jan. 24.—The state tax commission has announced the preliminary assessment of the railroad property in Wisconsin, showing an increase over the assessment of last year of nearly \$10,000,000. The railroads are given opportunity to appear and remonstrate against the preliminary assessment being made permanent. The assessment is made under the La Follette 24 valorem railroad taxation law of 1903. The railroad property assessment for 1905 was \$228,819,000. The total just announced is \$238,185,000.

Demands Retraction From Papers.

South Bend, Ind., Jan. 24.—James O. Hoover of Chicago, a former Elkhart county lawyer, suspended from practice for one year, has served notice on Goshen and Elkhart newspapers if they do not retract things they printed of him during the Darrow-Warden-Talbot trial he will sue for damages.

Bedford Suspect Is Released.

Denver, Col., Jan. 24.—William Barnes, who was arrested here on suspicion of having murdered Sarah Schaefer at Bedford, Ind., about two years ago, was released from custody there being no incriminating evidence against him.

Cullom Getting Better.

St. Augustine, Fla., Jan. 24.—Senator Shelby M. Cullom, who came here from Washington to recuperate his health, is rapidly improving. He is not confined to his room and is without medical attendance.

Where Diplomacy Fails.

Chicago Journal: Women always know how to ask one of their sex to stay for dinner in a way that she won't accept, but they are afraid to try it on a man for fear he will.

Buy it in Janesville.

SPECIAL LIGHTING RATES

In order to keep the wiremen busy during the winter months,

=WE OFFER=

One-half the regular lighting rates for the first four months to all new residence customers that are wired up before March 1st.

It means a saving of fifty per cent in your light bills.

Why Not Wire Now?

JANESVILLE ELECTRIC CO.,

BOTH PHONES ON THE BRIDGE

Is Your Mental Tool-Box Well Supplied?

Every householder prides himself upon his ability—when occasion demands—to handle a hammer, saw or chisel—upon a knack of driving an "emergency nail" or of doing any sort of a "can't wait job." He realizes that in the commonest odd-job about the house he needs tools—that a mere "pair of hands" are not enough. Man being a "tool-using animal," discovers, too, that in his daily life he needs tools not made of steel—intangible tools—mental implements—mental hammers, saws, squares, bits, chisels, planes—and the knack of using them. These tools are merely "ways and means" of repairing little losses, finding lost things, securing tenants or help, quickly selling property—personal or real—and they are more commonly known as

"WANT ADS."

and they have been called "chief of expedients," and are, in reality,

PUBLICLY DOING THE WORLD'S ODD JOBS!

Three Lines Three Times, 25c.
